Page 19—Rule 30 (a).—Insert the following explanation below Note 1 under this rule :—

"*Explanation.*—The terms 'overcharges' and 'undercharges' used in this note mean overcharges and undercharges of railway freight and fares only. They refer to shortages and excesses in the items included in a bill which has already been rendered ; the omission of an item in a bill is not an 'undercharge' nor is the erroneous inclusion of an item an 'overcharge'".

Note.—(*1*) The " rate of rent per acre paid in the neighbourhood at the time of renewal for the highest class of land under ordinary cultivations " does not refer to the rent paid by *jotedars* or any particular grade of tenants but to the rate which any *chukanidar* or actual cultivator can, as experience has shown, afford to pay for the most fertile land growing rice, sugarcane, or any other staple crop.

The certificate of the Inspector appointed under section 11 of the Act or other officer appointed by the Local Government in this behalf shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work and the promoters shall not be at liberty to dispute the same.

26. The promoters shall provide without unreasonable delay such statistics relating to the ropeway or to the traffic thereon as may from time to time be required by the Local Government.

(*2*) Only voters, members of the Election Committee and such other persons (if any) as the polling officer may by special directions admit, shall be allowed to enter the inner compartment of the polling booth.

(*3*) No candidate or agent of a candidate shall be admitted into the inner compartment except for recording his own vote.

(*4*) The polling officer shall regulate the number of voters to be admitted at any one time into either the inner or the outer compartment.

31. Immediately before the commencement of the poll the polling officer shall satisfy such persons as may be present in the outer compartment that each ballot box is empty and shall then lock it and place upon it his seal in such manner as to prevent its being opened without breaking such seal.

32. The candidates and their agents shall not speak to or address any intending voter in the polling booth, but may submit to the polling officer objections to a voter on any of the following four grounds:—

(*1*) That his name is not on the Final Electoral Roll of the ward in respect of which the election is being held.

(*2*) That his claim to be a certain voter shown on the Final Electoral Roll is false.

(*3*) That he has already voted.

(*4*) Where there is more than one polling centre in a ward, that under rule 25 he is not entitled to record his vote at the polling centre in respect of which the objection is raised.

33. The procedure for recording a vote shall be as follows:—

(*i*) There shall be no voting by proxy.

(*ii*) As each intending voter enters the outer compartment, his name and his number in the Final Electoral Roll shall be called out, so that everybody present can hear them.

(*iii*) No objection to an intending voter shall be entertained except on the grounds mentioned in rule 32.

(*iv*) Any objection shall be summarily decided by the polling officer, who may for this purpose take such evidence as may be available on the spot.

(*v*) If after taking such evidence the polling officer disallows the objection or if no objection is raised, he shall hand the voter the foil of a voting paper for the ward and shall allow him to proceed to vote.

(*vi*) Immediately before a voting paper is delivered to a voter, it shall be marked on the back with the official mark and an indication shall be placed in a copy of the Electoral Roll against the number of the voter to denote that he has received a voting paper, but no note shall be made of the particular voting paper which he has received.

(*vii*) The number of the voter in the Final Electoral Roll shall be marked on the counterfoil of his voting paper.

(*viii*) A voter who has received a voting paper shall forthwith be directed, by the polling officer or a person (not being a candidate or his agent) deputed by the polling officer for this purpose, to a place set apart therefor in the inner compartment and shall there mark a cross, within the space headed "voter's mark" on the voting paper against the name of any candidate for whom he intends to vote. He shall then conceal his vote by folding the voting paper and shall put the paper so folded into the ballot box. He shall vote without undue delay and shall quit the polling enclosure as soon as he has put the voting paper into the ballot box.

(*ix*) If the voter is unable to read the voting paper or to make a cross thereon, the polling officer shall mark the vote on the voting paper according to the direction of the voter at the place set apart within the inner compartment under clause (*viii*) of this rule, provided that if the voter so request he shall do so in the outer compartment. The voter shall then put the voting paper folded as prescribed in clause (*viii*) into the ballot box.

34. (*1*) A polling officer or a member of an Election Committee at a polling centre where he is not entitled to vote shall be allowed to record his vote there on his producing a certificate on a ballot paper from the polling officer of another polling centre that he is entitled to vote at such other centre.

(2) His vote shall be recorded in the manner prescribed in rule 33 except that, his voting paper after being filled in and folded as there prescribed shall be placed, with the certificate, in a sealed envelope by the polling officer and sent to the polling officer of the other polling centre who shall remove it from the envelope and put it in the appropriate ballot box.

35. It shall be the duty of the polling officer and the Election Committee to see that votes are recorded with the utmost secrecy, that the number on the voting paper handed over to a voter is not divulged to any other person, that no persons are admitted to either compartment except under these rules and that persons who have recorded their votes or against whom objections have been allowed are caused to leave immediately. It shall also be their duty to see that these rules and any special directions given by the polling officer thereunder are strictly observed.

36. (1) On the conclusion of the poll, the polling officer shall, with the assistance of the Election Committee, in the presence of the candidates or their agents, if any—

(a) satisfy himself that the seals affixed to the ballot boxes under rule 31 are intact, and either

(b) forthwith, when there is only one polling centre in the ward, open the ballot box and scrutinise the votes in accordance with rule 37, or

(c) when there are several polling centres in the ward send to the chief polling officer the ballot-boxes and the books of counterfoils and unused foils of voting papers and the marked copy of the Electoral Roll properly sealed with his own seal and the seal of such candidates or agents as may desire to affix their seal.

(2) The chief polling officer shall thereupon with the assistance of the Election Committee, in the presence of the candidates or their agents, if any, satisfy himself that the seals are intact, open the ballot boxes and scrutinise the votes in accordance with rule 37.

37. Any voting paper not marked, marked otherwise than with a cross, or marked elsewhere than in the space provided for the purpose, or on which more crosses are marked than there are vacancies, or on which a cross is so placed as to make it doubtful to which candidate the vote has been given, or on which any mark is made by which the voter may be identified shall be invalid. A note to this effect shall be made upon it by the polling officer and it shall not be included in the count.

38. When the voting papers have been scrutinised the polling officer or chief polling officer shall with the assistance of the Election Committee, in the presence of the candidates or their agents, if any, count the valid votes and declare to be elected in any ward the candidate or candidates to whom the highest number of votes has been given. If there be an equality of votes and if the number of vacancies does not admit of all

the candidates who have obtained an equality of votes being elected, he shall by drawing lots in such manner as he may determine select one of such candidates whom he shall declare to be elected.

39. The polling officer or chief polling officer shall forthwith, if not himself the Chairman, report in writing the result of the election to the Chairman.

40. When a candidate has been elected for more than one ward,—

(*a*) he shall be declared by the Chairman to have been elected for such ward, if any, out of those wards, in which the election has been uncontested,

(*b*) otherwise, within five days from the date of the election, he shall declare which of such wards he will represent:

and if he fails to make such declaration, the Chairman shall forthwith declare the ward which such candidate shall represent. In either case such candidate shall be held to be elected in the ward in respect of which a valid declaration has been made under this rule and in every other ward for which the said candidate has been elected the result of the election shall be determined as if no votes had been recorded for him:

Provided that, if there is no other candidate for whom votes have been recorded to fill the vacancy thus caused, a fresh election shall be held.

41. A second election, under section 26 of the Act, shall begin at the stage from which the original election failed, *e.g.*, if the election failed at the time of polling a fresh poll only shall be held or if the election failed for want of candidates, fresh nominations shall be called for.

42. When the voting papers have been scrutinised and counted the polling officer or the chief polling officer, as the case may be, shall forthwith replace them in the ballot box from which they were taken and seal it in the manner prescribed by rule 31 and rule 36 (*I*) (*c*). He shall also seal up the books of counterfoils and unused foils of voting papers and also the copy of the marked Electoral Roll, with his own seal and the seal of such candidates or their agents as may desire to affix them. If he is not himself the Chairman, he shall make them over with the ballot box to the Chairman to be kept in safe custody until the books and the voting papers are destroyed under rule 43.

43. On the expiry of 30 days from the date of the declaration of the result of the election, or, if an election petition has been filed under section 36 of the Act, as soon as possible after the disposal of the petition, the voting papers in the ballot boxes and the sealed books containing unused voting papers and counterfoils shall be destroyed in the presence of such municipal commissioner or officer as the Commissioners at a meeting may appoint for this purpose.

44. The list of duly elected candidates for the whole municipality shall be forwarded by the Chairman through the Deputy Commissioner to the Commissioner of Division for publication by him in the *Calcutta Gazette*.

45. In a municipality where the Deputy Commissioner is the Chairman, the duties assigned to the Chairman in these rules shall be discharged by the Vice-Chairman.

46. If, in any case, such a course appears to the Local Government to be necessary, it may direct that the Deputy Commissioner shall perform all or any of the duties assigned by these rules to the Chairman or the Commissioners at a meeting.

47. No person having directly or indirectly by himself or his partner any share or interest in any contract or employment with, by or on behalf of the Commissioners, or holding any office of profit under the Commissioners, shall directly or indirectly, engage in canvassing for votes or otherwise assist in the election of any candidate otherwise than by giving his own vote.

48. All costs incurred in the preparation, printing and publication of the Electoral Rolls, the publication of notices, the holding of elections, or the taking of any other necessary action under these rules, shall be payable by the Commissioners out of the municipal fund.

Chittagong, the 18th June 1936.

Rules for the guidance of private candidates for the Matriculation Examination of 1937.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information:

1. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

2. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below :—

Comilla Zilla School, Noakhali R. K. Zilla School, Chittagong Collegiate School and Rangamati High English School.

Dates of examination—4th, 5th, 6th, 7th and 8th January 1937.

Female candidates and teachers of schools recognised by the Calcutta University, or any other University or any Board of Secondary Education in India or by the Department are not required to pass the Test Examination for private candidates held by the Inspector of Schools, Chittagong Division.

3. Private candidates offering hygiene as one of their subjects need not obtain the previous permission of the University for that purpose. They will be required to satisfy the Inspector of Schools that they have undergone a course of training in the subject. For this purpose they should submit to the Divisional Inspector of Schools, along with their applications for permission to appear at the Test Examination, certificates of training in it from a recognised medical practitioner or from a recognised teacher in hygiene.

4. Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

5. Application for permission to appear at the Test Examination must be sent in time in duplicate in the enclosed form so as to reach this office not later than the 20th November 1936.

N. B. -A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1935 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

6. The Inspector on being satisfied will grant necessary permission and return the application, which will then be the candidate's passport for admission to the Test Examination.

7. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear at least 18 days before the date of that examination. The headmaster will deposit the amount realised by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

8. The headmasters of the institutions named in paragraph 2 above should direct private candidates who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be returned to the headmasters for delivery to the candidates concerned.

9. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

10. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

11. The Matriculation Examination will be held in March 1937, the exact dates of which will be notified by the University.

Rules for the guidance of private candidates for the Matriculation Examination of 1937.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information :—

1. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school-masters.

2. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned below :—

Comilla Zilla School, Noakhali R. K. Zilla School, Chittagong Collegiate School and Rangamati High English School.

Dates of examination—4th, 5th, 6th, 7th and 8th January 1937.

Female candidates and teachers of schools recognised by the Calcutta University, or any other University or any Board of Secondary Education in India or by the Department are not required to pass the Test Examination for private candidates held by the Inspector of Schools, Chittagong Division.

3. Private candidates offering hygiene as one of their subjects need not obtain the previous permission of the University for that purpose. They will be required to satisfy the Inspector of Schools that they have undergone a course of training in the subject. For this purpose they should submit to the Divisional Inspector of Schools, along with their applications for permission to appear at the Test Examination, certificates of training in it from a recognised medical practitioner or from a recognised teacher in hygiene.

4. Each private student will pay a fee of Rs. 5 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the headmaster of the institution in which he appears.

5. Application for permission to appear at the Test Examination must be sent in time in duplicate in the enclosed form so as to reach this office not later than the 20th November 1936.

N. B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1935 and then left the school can, under no circumstances, be allowed to appear at the Test Examination.

6. The Inspector on being satisfied will grant necessary permission and return the application, which will then be the candidate's passport for admission to the Test Examination.

7. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear at least 18 days before the date of that examination. The headmaster will deposit the amount realised by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

8. The headmasters of the institutions named in paragraph 2 above should direct private candidates who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their presence. They will then grant the necessary certificate and forward the applications to the Inspector for countersignature, after which they will be returned to the headmasters for delivery to the candidates concerned.

9. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

10. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

11. The Matriculation Examination will be held in March 1937, the exact dates of which will be notified by the University.

12. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

(*b*) Possible means of increase in the revenues of the district board.	(*b*) At present none.
(*c*) A statement of all outstanding loans specifying in respect of each loan, the date when taken the purpose (very briefly), the amount, the annual charges involved and the amount still payable.	(*c*) No outstanding loan.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the district board when such position is otherwise than the ordinary surplus would indicate.	(*d*) The district board is spending money towards alleviating the distress of the landless labourers due to scarcity in recent years. This has greatly increased its expenditures over the normal expenditures which could be safely diverted to other normal activities of the board. In spite of these the closing balances it has maintained in these years, viz., Rs. 63,339, Rs. 88,341 and Rs. 82,328. Leave much towards providing safely as much as Rs. 10,000 towards repayment of further loans of a higher amount for which application will follow. To meet exigencies, the district board is maintaining a fairly larger closing balances in these years. The Government contribution towards water-supply which the district board will have every year will also help much towards repayment of the loan with greater ease to the district board.

Suits for nullity.

30. In any case in which consummation of the marriage is from natural causes impossible, such marriage may, at the instance of either party thereto, be declared to be null and void.

Suits for dissolution.

31. If a husband or wife shall have been continually absent from his or her wife or husband for the space of seven years, and shall not have been heard of as being alive within that time by those persons who would have naturally heard of him or her, had he or she been alive, the marriage of such husband or wife may, at the instance of either party thereto, be dissolved.

Grounds for divorce.

32. Any married person may sue for divorce on any one or more of the following grounds, namely :—

(*a*) that the marriage has not been consummated within one year after its solemnization owing to the wilful refusal of the defendant to consummate it ;

(*b*) that the defendant at the time of the marriage was of unsound mind and has been habitually so up to the date of the suit :

Provided that divorce shall not be granted on this ground, unless the plaintiff (1) was ignorant of the fact at the time of the marriage, and (2) has filed the suit within three years from the date of the marriage ;

(*c*) that the defendant was at the time of marriage pregnant by some person other than the plaintiff :

Provided that divorce shall not be granted on this ground, unless (1) the plaintiff was at the time of the marriage ignorant of the fact alleged, (2) the suit has been filed within two years of the date of marriage, and (3) marital intercourse has not taken place after the plaintiff came to know of the fact ;

(*d*) that the defendant has since the marriage committed adultery or fornication or bigamy or rape or an unnatural offence :

Provided that divorce shall not be granted on this ground, if the suit has been filed more than two years after the plaintiff came to know of the fact ;

(*e*) that the defendant has since the marriage voluntarily caused grievous hurt to the plaintiff or has infected the plaintiff with venereal disease or, where the defendant is the husband, has compelled the wife to submit herself to prostitution :

Provided that divorce shall not be granted on this ground, if the suit has been filed more than two years (*i*) after the infliction of the grievous hurt, or (*ii*) after the plaintiff came to know of the infection, or (*iii*) after the last act of compulsory prostitution ;

(*f*) that the defendant is undergoing a sentence of imprisonment for seven years or more for an offence as defined in the Indian Penal Code : XLV of 1860.

Provided that divorce shall not be granted on this ground, unless the defendant has prior to the filing of the suit undergone at least one year's imprisonment out of the said period ;

(*g*) that the defendant has deserted the plaintiff for at least three years ;

(*h*) that a decree or order for judicial separation has been passed against the defendant, or an order has been passed against the defendant by a Magistrate awarding separate maintenance to the plaintiff, and the parties have not had marital intercourse for three years or more since such decree or order ;

(*i*) that the defendant has failed to comply with a decree for restitution of conjugal rights for a year or more ; and

(*j*) that the defendant has ceased to be a Parsi :

Provided that divorce shall not be granted on this ground if the suit has been filed more than two years after the plaintiff came to know of the fact.

Joining of co-defendant.

33. In every such suit for divorce on the ground of adultery, the plaintiff shall, unless the Court shall otherwise order, make the person with whom the adultery is alleged to have been committed a co-defendant, and in any such suit by the husband the Court may order the adulterer to pay the whole or any part of the costs of the proceedings.

Suits for judicial separation.

34. Any married person may sue for judicial separation on any of the grounds for which such person could have filed a suit for divorce, or on the ground that the defendant has been guilty of such cruelty to him or her or their children, or has used such personal violence, or has behaved in such a way as to render it in the judgment of the Court improper to compel him or her to live with the defendant.

Decrees in certain suits.

35. In any suit under section 30, 31, 32 or 34, whether defended or not, if the Court be satisfied that any of the grounds set forth in those sections for granting relief exist, that none of the grounds therein set forth for withholding relief exist and that :

(*a*) the act or omission set forth in the plaint has not been condoned ;

(*b*) the husband and wife are not colluding together :

(*c*) the plaintiff has not connived at or been accessory to the said act or omission :

(*d*) (save where a definite period of limitation is provided by this Act) there has been no unnecessary or improper delay in instituting the suit ; and

(*e*) there is no other legal ground why relief should not be granted :

then and in such case, but not otherwise, the Court shall decree such relief accordingly.

Suit for restitution of conjugal rights.

36. Where a husband shall have deserted or without lawful cause ceased to cohabit with his wife, or where a wife shall have deserted or without lawful cause ceased to cohabit with her husband, the party so deserted or with whom cohabitation shall have so ceased may sue for the restitution of his or her conjugal rights and the Court, if satisfied of the truth of the allegations contained in the plaint, and that there is no just ground why relief should not be granted, may proceed to decree such restitution of conjugal rights accordingly.

Counter-claim by defendant for any relief.

37. In any suit under this Act, the defendant may make a counter-claim for any relief he or she may be entitled to under this Act.

No suit to be brought to enforce marriage or contract arising out of marriage when husband is under sixteen years or wife under fourteen years.

38. Notwithstanding anything hereinbefore contained, no suit shall be brought in any Court to enforce any marriage or any contract connected with or arising out of any marriage, if, at the date of the institution of the suit, the husband shall not have completed the age of sixteen years, or the wife shall not have completed the age of fourteen years.

Alimony *pendente lite*.

39. In any suit under this Act if the wife shall not have an independent income sufficient for her support and the necessary expenses of the suit, the Court, on the application of the wife, may order the husband to pay her monthly or weekly during the suit such sum not exceeding one-fifth of her husband's net income as the Court, considering the circumstances of the parties, shall think reasonable.

Permanent alimony.

40. (*1*) The Court may, if it shall think fit at the time of passing any decree under this Act or subsequently thereto on application made to it for the purpose, order that the husband shall,—

(*a*) to the satisfaction of the Court, secure to the wife while she remains chaste and unmarried such gross sum or such monthly or periodical payment of money for a term not exceeding her life as, having regard to her own property, if any, her husband's ability and the conduct of the parties, shall be deemed just, and for that purpose may require a proper instrument to be executed by all necessary parties and suspend the pronouncing of its decree until such instruments shall have been duly executed, or

(*b*) make such monthly payments to the wife for her maintenance and support as the Court may think reasonable.

In case any such order shall not be obeyed by her husband it may be enforced in the manner provided for the execution of decrees and orders under the Code of Civil Procedure, 1908, and further the husband may be sued by any person supplying the wife with necessaries during the time of such disobedience for the price of such necessaries. V of 1908.

(*2*) The Court, if satisfied that there is a change in the circumstances of either party at any time, may at the instance of either party vary, modify or rescind such order in such manner as the Court may deem just.

Payment of alimony to wife or to her trustee.

41. In all cases in which the Court shall make any decree or order for alimony it may direct the same to be paid either to the wife herself, or to any trustee on her behalf to be approved by the Court, and may impose any terms or restrictions which to the Court may seem expedient, and may from time to time appoint a new trustee, if for any reason it shall appear to the Court expedient so to do.

Disposal of joint property.

42. In any suit under this Act the Court may make such provisions in the final decree as it may deem just and proper with respect to property presented at or about the time of marriage which may belong jointly to both the husband and wife.

Suits may be heard with closed doors.

43. In every suit preferred under this Act, the case shall be tried with closed doors should such be the wish of either of the parties.

Validity of trial.

44. Notwithstanding anything contained in section 19 or section 20, where in the case of a trial in a Parsi Matrimonial Court not less than five delegates have attended throughout the proceedings, the trial shall not be invalid by reason of the absence during any part thereof of the other delegates.

Provisions of Civil Procedure Code to apply to suits under the Act.

45. The provisions of the Code of Civil Procedure, 1908, shall, so far as the same may be applicable, apply to proceedings in suits instituted under this Act including proceedings in execution and orders subsequent to decree. V of 1908.

Determination of questions of law and procedure and of fact.

46. In suits under this Act all questions of law and procedure shall be determined by the presiding Judge; but the decision on the facts shall be the decision of the majority of the delegates before whom the case is tried:

Provided that, where such delegates are equally divided in opinion, the decision on the facts shall be the decision of the presiding Judge.

Appeal to High Court.

47. An appeal shall lie to the High Court from—

(*a*) the decision of any Court established under this Act, whether a Chief Matrimonial Court or District Matrimonial Court, on the ground of the decision being contrary to some law or usage having the force of law, or of a substantial error or defect in the procedure or investigation of the case which may have produced error or defect in the decision of the case upon the merits, and on no other ground; and

(*b*) the granting of leave by any such Court under sub-section (*3*) of section 29;

Provided that such appeal shall be instituted within three calendar months after the decision appealed from shall have been pronounced.

Liberty to parties to marry again.

48. When the time hereby limited for appealing against any decree granting a divorce or annulling or dissolving a marriage shall have expired, and no appeal shall have been presented against such decree, or when any such appeal shall have been dismissed, or when in the result of any appeal a divorce has been granted or a marriage has been declared to be annulled or dissolved, but not sooner, it shall be lawful for the respective parties thereto to marry again, as if the prior marriage had been terminated by death.

V.—CHILDREN OF THE PARTIES.

Custody of children.

49. In any suit under this Act, the Court may from time to time pass such interim orders and make such provisions in the final decree as it may deem just and proper with respect to the custody, maintenance and education of the children under the age of sixteen years, the marriage of whose parents is the subject of such suit, and may, after the final decree upon application, by petition for this purpose, make, revoke, suspend or vary from time to time all such orders and provisions with respect to the custody, maintenance and education of such children as might have been made by such final decree or by interim orders in case the suit for obtaining such decree were still pending.

Settlement of wife's property for benefit of children.

50. In any case in which the Court shall pronounce a decree of divorce or judicial separation for adultery of the wife, if it shall be made to appear to the Court that the wife is entitled to any property either in possession or reversion, the Court may order such settlement as it shall think reasonable to be made of any part of such property, not exceeding one half thereof, for the benefit of the children of the marriage or any of them.

VI. MISCELLANEOUS.

Superintendence of High Court

51. The High Court shall have superintendence over all Courts constituted under this Act subject to its appellate jurisdiction in the same manner as it has over other Courts under section 107 of the Government of India Act, and all the provisions of that section shall apply to such Courts.

Applicability of provisions of the Act.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1936.

[NOTE.—On an average of the five years ending 1933-34, the area under jute in Bengal to which this forecast relates, represents some 86·1 per cent. of the total area under jute in British India.]

The preliminary forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from the Panchayets and Agricultural Officers.

Revision of area for 1935.—In 1935 the forecasted area was 1,689,000 acres. This has since been revised to 1,917,500 acres. Crop sampling experiments were carried out last year in the jute-growing districts to check the areas returned. The results indicated that in certain districts the areas returned were considerably short of the actuals and that the errors have recurred over a number of years.

Area sown in 1936.—In Bengal returns for the present season show a total area of 2,180,800 acres, an increase of 263,300 acres, or about 13·73 per cent. as compared with the revised figures for 1935. The increase in area is attributed partly to favourable weather conditions at the time of sowing and partly to expectation of high prices for the season's crop.

Character of the season.—At the outset rainfall was defective and the progress of sowings was slow. Later on occasional good showers facilitated sowings in East Bengal. Alternate rain and sunshine helped growth and development generally. In North Bengal crop, though late in some tracts progressed favourably, on the whole. In West Bengal conditions were generally fair for sowing and the present outlook is satisfactory.

Present state of the crop.—The condition of the crop is good in East and parts of North Bengal and satisfactory elsewhere.

Stock.—Collectors report that stocks in the hands of cultivators are small.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BIHAR.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR, 1936.

[NOTE. **On an average of the five years ending 1933-34, the area under jute in Bihar and Orissa to which this Forecast relates represents about 7·3 per cent. of the total area under jute in British India.**]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Year.		Acreage.	
1932	...	170,000 (Revised).	Including Orissa.
1933	...	192,100	
1934	...	173,800 (Revised).	
1935	...	128,400	
1936	...	181,000	

3. **Weather conditions.**—In March light rain fell in all the jute-growing districts. The fall was below the normal. In April light rain fell in all the jute districts. The fall was below the normal everywhere. In May rain fell in all the jute districts. The fall was above the normal everywhere. In June light rain fell in all the jute districts. The weather conditions are reported to be not quite favourable in the important jute district of Purnea. Sowings were normal and have been completed.

4. **District returns.**—Last year's area under jute has been finally estimated at 128,400 acres excluding Orissa. The total area under jute this year is estimated by District Officers in round numbers at 181,000 acres. The increase in area is marked in Purnea and also in Bhagalpur and Darbhanga and is due to a little rise in the price of jute market in Purnea and to favourable weather in the remaining two districts.

5. **Condition and prospects.**—The condition of the crop is, on the whole, fair.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1935 is reported to be small.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

PRELIMINARY FORECAST OF THE JUTE CROP OF ORISSA, 1936.

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—The area sown during the current and four preceding years is estimated in round numbers as follows:—

Year.	Acreage.
1932	... 19,200
1933	... 19,100
1934	... 17,400
1935	... 17,200
1936	... 15,100

3. **Weather conditions.**—In March light rain fell in Cuttack and Balasore. The fall was below normal. In April also light rain fell in Cuttack and Balasore. In May and June heavy rain fell in Cuttack and Balasore. Nearly half of the area sown in Balasore is reported to have been damaged by heavy rain and floods.

4. **District returns.**—Last year's area under jute has been finally estimated at 17,200 acres. The total area under jute this year is estimated by District Officers in round number at 15,100 acres. The decrease in area is due to heavy rainfall at sowing time.

5. **Condition and prospects.**—The condition of the crop is reported to be not good in Balasore.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1935 is reported to be little.

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1936.

[NOTE.—On the average of the five years ending 1933-34, the area under jute in Assam represents some 5·5 per cent. of the total area under jute in British India.]

1. **Season.**—The weather has been generally favourable for the cultivation and growth of the crop almost in all the jute-growing districts but during the latter part of May there was a high flood which affected the crop in both the Valleys, specially in the low lying areas. Reports of some damage by insect also has been reported from Kamrup. The present condition of the crop is, however, reported to be satisfactory and the outturn is anticipated to be better than that of last year.

2. **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 128,000 acres against 117,800 acres (revised) of last year. There is an increase in area in all the important jute-growing districts except Sylhet which is attributed mainly to favourable weather condition at sowing time. The net increase over last year's actual figure is 10,200 acres.

3. **Stock.**—According to the reports of the Deputy Commissioners very little jute remains in stock from the crop of last year.

Cachar (plains) ..	200	200	200	..	..	None ..	Middle of April. Normal.	The weather was favourable at sowing time but the growth has been impeded by the excessive rainfall during the first part of June resulting in flood, especially in low-lying areas where the crop has been damaged to some extent. The outturn is likely to be worse than that of last year.
Sylhet ..	15,000	10,700	9,400	..	1,300	Little ..	Do ..	The decrease in area is due to restriction scheme. The weather has been generally favourable for the cultivation and growth of the crop and a better outturn than last year is anticipated.
Goalpara ..	60,000	29,400	35,000	5,600	..	A little quantity remains.	First part of April. Normal	The increase in area is due to favourable weather condition at sowing time. The weather has been generally favourable for the crop but the recent flood has caused some damage to the crop in low-lying areas. However, the outturn is expected to be better than last year.
Kamrup ..	28,000	24,200	26,100	1,900	..	None ..	Early April. Normal.	The increase in area is due to favourable weather at sowing time. The weather has been generally favourable for the cultivation and growth of the crop but flood and insects have caused some damage in some places. The outturn is likely to be better than last year.
Darrang ..	12,600	8,700	9,000	300	..	Little ..	Beginning of April. Normal.	The slight increase in area is due to extension of cultivation. The weather has been favourable for the cultivation and growth of the crop and a better outturn than last year is expected.
Nowgong ..	50,000	40,200	43,500	3,300	..	Do. ..	Middle of March. Normal.	The increase in area is due partly to better price of jute last year and partly to the extension of cultivation by the colonists in spite of the attempt to restrict cultivation. The weather has been favourable for the crop but the recent flood has caused some damage specially in the low-lying areas. The present condition of the crop is good and the outturn is expected to be better than last year.
Sibsagar ..	400	400	400	..	..	None ..	Middle of April. Normal.	The weather was dry at sowing time but improved afterwards. The present condition of the crop is fair and the outturn is expected to be the same as in last year.

SUPPLEMENT.

Official Papers.

Report on Public Instruction in Bengal for the year 1934-35.

CHAPTER I.

General.

1. The year 1934-35 witnessed slow but steady work in the Department of Education. The acute economic distress prevailing throughout the country continued almost unabated. It was chiefly due to this that the full scheme of Bengal (Rural) Primary Education Act, 1930, could not be introduced and development of many other useful measures could not be given effect to.

Notwithstanding there was a general increase in the number of pupils although there was a decrease in the number of institutions.

2. (*i*) In accordance with the optional scheme framed by Government under the Rural Primary Education Act, 1930, district school boards were constituted in the districts of Mymensingh, Chittagong, Pabna, Dinajpur, Noakhali, Bogra, Birbhum, Dacca, Nadia and Murshidabad during the year under report. The change of control of primary education from district boards to the district school boards constituted on a wider basis of representation has brought the authorities concerned with mass education in rural areas in direct touch with the problems of primary education. This will enable these boards to take effective measures for the expansion of primary education within their areas when the Act is in full operation.

(*ii*) The Corporation of Calcutta gave a start to the scheme for the introduction of free and compulsory primary education of all boys between the ages 6 and 10 in Ward IX of the city.

(*iii*) Maps and statistics of secondary schools were collected by the department for a general survey with a view to examine the possibility of their consolidation.

(*iv*) The reduced rates of grants paid to non-Government colleges and secondary schools continued.

(*v*) Introduction of compulsory tiffin in all Government and some aided high English schools and a gradual improvement in the measures provided by schools for improving the health of pupils.

(*vi*) Recognition of the Nepali language by the Government as the medium of instruction for Nepalis in the district of Darjeeling in all classes of primary schools.

(*vii*) Abolition of the Boards of Sonthal education in the districts of Dinajpur and Birbhum.

(*viii*) Inauguration of inter-school associations for the better organisation of physical education, and

(*ix*) Anti-terrorist propaganda by the Government Publicity Department as also by peripatetic lecturers specially appointed for the purpose by the Education Department.

3. (*i*) The progress made in education in Bengal during the year can be gauged from the following tables which give comparative figures for 1934-35 and the preceding year:—

CHAPTER II.

Administration and Control.

1. Educational institutions in the Presidency are controlled mainly by the Education Department of Government, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca, District Boards, Municipalities, District School Boards constituted under the provisions of the Bengal Rural Primary Education Act, 1930, and various religious and philanthropic societies—both Indian and non-Indian. General education is in charge of the Minister of Education, while European education is controlled, as previously, by a Member of His Excellency the Governor's Executive Council. During the first quarter of the year the Education portfolio was in charge of the Hon'ble Mr. (now Sir) Khwaja Nazimuddin, K.C.I.E. But on 15th June 1934 the Hon'ble Khan Bahadur M. Azizul Haque was appointed Minister of Education in place of Sir Khwaja Nazimuddin, K.C.I.E., who became an Executive Councillor, and held office for the rest of the period under review.

2. The Education Department is manned by—

(*i*) Members of the Indian Educational Service (Men's and Women's Branches),

(*ii*) Members of the Grade I of the Bengal Educational Service (Men's and Women's Branches), now called Bengal Senior Educational Service,

(*iii*) Members of the Bengal Educational Service (Men's and Women's Branches),

(*iv*) Members of the Subordinate Educational Service, and

(*v*) Officers holding (*a*) special posts and (*b*) posts not included in any of the services mentioned above.

(*i*) *Indian Educational Service.*—The number of posts in the Men's Branch of the Indian Educational Service was reduced from 67 (excluding that of the Director of Public Instruction) to 25 owing to the abolition of certain posts from this cadre on the constitution of Grade I of the Bengal Educational Service in the year under report. In the Women's Branch of the Indian Educational Service there was only one post (against 4 in the preceding year) which was held by an

officer on contract; the other three posts were replaced by those in Grade I of the Bengal Educational Service now called Bengal Senior Educational Service.

(*ii*) *Grade I of the Bengal Educational Service (Bengal Senior Educational Service).*—Fifty-three posts were created in Grade I of the Bengal Educational Service (Men's Branch) of which 25 replaced corresponding posts in the Indian Educational Service, 21 were filled on Grade I basis, 1 on a contract basis, and the rest were left vacant. Five posts were created in Grade I of the Bengal Educational Service (Women's Branch); appointments were made to 4 of these posts during the year; the remaining post is meant to replace a post in the Indian Educational Service which is now filled by an officer on contract basis.

(*iii*) *Bengal Educational Service.*—In this Branch of the service there were 192 permanent posts against 202 in the preceding year, the reduction being due to abolition of certain posts and other causes. There were also 16 temporary posts in this cadre as compared with 17 in the previous year. In the Women's Branch there were 21 permanent posts against 20 in the previous year.

(*iv*) *Subordinate Educational Service.*—At the beginning of the year appointments in the Subordinate Educational Service numbered 2,140 divided into various branches, viz., teaching, inspecting, miscellaneous and ministerial. Owing to the abolition of certain posts and creation of new ones the number was reduced to 2,119 at the end of the period under review as detailed below:—

	1st April 1934.	31st March 1935.	
Teaching	1,340	1,324	(including 83 posts held in abeyance or lying vacant).
Inspecting	314	311	
Miscellaneous	90	87	(including 4 posts held in abeyance).
Ministerial	396	397	
Total	2,140	2,119	

Besides the above there were certain other temporary whole-time or part-time posts on 31st March 1935 which are enumerated below:—

Whole-time posts—

(*i*) Lecturers	11
(*ii*) Physical Instructress, Bethune College, and Collegiate School ..	1
(*iii*) Teachers of the School Final Classes attached to Darjeeling Government High School	3
(*iv*) Subdivisional Inspector of Schools, Chittagong Hill Tracts	1
(*v*) Miscellaneous	22
(*vi*) Clerks	12

Part-time posts—

(*i*) Lecturers	10
(*ii*) Drawing Master, David Hare Training College	1
(*iii*) School Medical Officers	3
Total	64

(*v*) (*a*) *Special posts.*—The number of "special posts" decreased during the period from 40 to 38; the decrease was due to the inclusion of one post in Grade I of the Bengal Educational Service (Women's Branch) and the transfer of the other to the Men's Branch of the Bengal Educational Service.

(*b*) The number of posts not included in the classified lists was 11 during the year as against 20 in the year preceding, the decrease being due to the inclusion of 9 posts in Grade I of the Bengal Educational Service. This number excludes the posts of part-time Professors of Geology and Accountancy, Bengal Engineering College, and that of Geology, Presidency College.

3. **Direction.**—Mr. J. M. Bottomley held charge of the office of the Director of Public Instruction during the year with the exception of the period from 20th July to 26th November 1934, when he acted as Secretary to Government in the Education Department. During his absence the duties of the post were performed first by Mr. A. K. Chanda (from 20th July to 25th October 1934) and then by Dr. W. A. Jenkins (from 26th October to 26th November 1934). The post of Assistant Director of Public Instruction was held by Mr. R. Wolfenden up to 2nd May 1934, by Mr. A. K. Chanda from 3rd May to 19th July 1934, from 26th to 31st October 1934 and again from 10th November 1934 up to the end of the year under review, and by Mr. J. M. Sen from 20th July to 25th October 1934, and from 1st to 9th November 1934, Khan Bahadur Mr. Maula Baksh continued to perform the duties of the Assistant Director of Public Instruction for Muhammadan Education. The post of Special Officer for Primary Education was held successively by Mr. J. M. Sen, Maulvi Aftabuddin Ahmed and Khan Bahadur Mr. Tasaddak Ahmed. Mr. J. Buchanan held the post of Physical Director up to 1st January 1935 when he went on leave and was succeeded by Mr. Kshitindra Nath Roy.

4. **Inspection.**—The subjoined table shows the strength of the departmental inspecting staff as it stood on 31st March 1935:—

(*a*) Includes the post of a Second Inspector of Schools, Presidency Division, which has been kept in abeyance.

(*b*) Includes the post of a Second Inspector of Schools, Burdwan Division, which has been kept in abeyance.

(*c*) Excludes the post of District Inspector of Schools, Chittagong Hill Tracts, which has been temporarily reduced to the status of a Subordinate Educational Service post.

5. **Extra departmental agencies.**—The department received invaluable aid from District and Subdivisional Officers. They gave ungrudgingly their time for work as presidents of managing committees of numerous schools, and during times of unrest and trouble they have earned the special thanks of the department by their generous offers of advice and help. The acknowledgments of the department are also due to chairmen and vice-chairmen of district boards, municipalities, district school boards, and union boards for the interest they have evinced in the improvement of primary education in their respective areas. The work of the various Christian missionary bodies, Ramkrishna Missions and Brahmo Somajes as well as the work of the organisations like the Society for the Improvement of Backward Classes and the Nari Siksha Samiti also deserve special mention for their whole-hearted endeavour for the advancement of education among girls and the members of backward communities. Railway authorities also assisted the cause of education by maintaining schools at important centres which are open to children of all communities although they are meant chiefly for the sons and daughters of railway employees.

CHAPTER III.

Primary Education.

1. **General statistics.**—There was increase in the number of pupils attending primary schools for boys and girls in spite of the fall in the number of schools. The following table gives figures for these and also for the cost of maintaining the schools:-

	1933-34.	1934-35.
Number of schools	64,320	64,309
Number of pupils	2,286,442	2,378,750
Cost	Rs. 80,22,674	81,18,121

Primary education of Indian boys.

(The primary education of Indian girls and Europeans is dealt with in other chapters.)

2. **Schools.**—The number of primary schools for Indian boys rose during the year from 45,431 to 45,588; this increase was shared by the Presidency, Dacca and Rajshahi Divisions. The decrease of schools in the Burdwan and Chittagong Divisions is mainly due to efforts towards amalgamation of weaker schools.

The subjoined table indicates the number of primary schools for Indian boys in the Presidency, division by division:—

Division.	1934-35.						1933-34.
	No. of schools managed by Government.	No. of schools managed by district boards.	No. of schools managed by municipal boards.	No. of schools receiving aid from public funds	No. of schools not receiving aid from public funds.	Total.	Total No. of schools returned in the previous year.

3. **Pupils.**—On the 31st March 1935, primary schools for Indian boys were attended by 1,865,977 pupils (including 136,637 girls) as compared with 1,790,154 pupils (including 116,146 girls) in the preceding year. Besides this number primary classes of secondary schools had 212,102 pupils against 183,122 in 1933-34. Pupils reading in primary schools for Indian boys and in the primary department of secondary schools therefore numbered 2,078,079 against 1,973,276 in the previous year, there being a gain of 104,803 pupils during the year under review. Outwardly this figure is satisfactory but an appalling state of affairs is disclosed in studying the numerical strength of the various classes. A very large proportion of pupils, viz., approximately about 70 per cent. never reach class IV or V. Moreover, it is to be remembered that in the present conditions of rural life a pupil who has read one or two years in a primary school soon relapses into illiteracy, which implies enormous loss of money, energy and human material. The obvious correctives are better qualified and better paid teachers, greater co-operation on the part of parents in keeping children at school till the end of the primary course and the gradual enforcement, as funds permit, of compulsory education. Of the total male population of school-going age 53·3 per cent. were receiving primary education during the period under review.

4. **Relative progress of Hindus and Muhammadans.**—Classified according to communities, there were altogether 851,003 Hindu and 1,044,577 Muhammadan boys reading in the primary stage at the close of the year under report as compared with 829,976 and 1,007,623, respectively, in the previous year. The number of Hindu boys increased by 21,027 and that of Muhammadan boys by 36,954 in the course of the year. Of the total Hindu male population 7·5 per cent. and of the Muhammadan male population 7·3 per cent. were under instruction in the primary stage.

5. **Expenditure.**—The total cost of maintaining primary schools for Indian boys rose during the year under review from Rs. 64,99,588 to Rs. 65,26,878. Of this amount Rs. 36,86,253 or 56·5 per cent. was borne by the public funds and Rs. 28,40,625 or 43·5 per cent. was met from private sources. In 1933-34 public and private funds contributed 56·26 and 43·74 per cent. respectively of the total direct expenditure on primary schools for Indian boys. The expenditure from public funds was made up of Rs. 21,49,948 from Provincial revenues and Rs. 8,28,146 from district and Rs. 7,08,159 from municipal funds against Rs. 21,62,627, Rs. 7,55,433 and Rs. 7,38,656, respectively. Thus expenditure incurred from Provincial revenues and municipal funds for the maintenance of primary schools decreased, while that from district funds increased. Reduction of grants under certain heads was responsible for the smaller expenditure from Provincial revenues; in the case of municipal funds the decrease of expenditure was mainly due to the closure of some free night primary schools in Calcutta owing to legal difficulties.

6. **Punchayati union schools.**—The number of Punchayati union schools rose from 1,080 in 1933-34 to 1,081 in 1934-35. A sum of Rs. 1,37,863 was sanctioned during the year under review for the maintenance of Punchayati union schools for boys and girls. With the passing of the Bengal (Rural) Primary Education Act, 1930, further extension of the scheme of Punchayati union schools has been postponed as these schools will be fitted in with the new system of primary schools

to be started under the Act. Punchayati union schools are not so popular as the Biss' Primary schools, as the latter do not charge any fees.

7. **Primary schools under Mr. Biss' scheme.**—Pending the introduction of the Primary Education Act, 1930, extension of the scheme to rural areas has been suspended and no new scheme for urban areas could be financed during the year on account of the financial stringency. The number of schools of this type was 283 in the year under report.

8. **Primary schools in Calcutta.**—On the 31st March 1935 there were 510 primary schools for Indian boys in Calcutta with 40,252 pupils as compared with 503 schools having 40,379 pupils in the previous year. Of these pupils 23,985 were Hindus and 12,187 were Muhammadans. Boys reading in primary schools and in primary department of secondary schools together numbered 59,041 on 31st March 1935 against 57,356 on the corresponding date of the previous year. The total cost of maintaining boys' primary schools in Calcutta amounted to Rs. 6,94,369 as compared with Rs. 7,26,795 in the previous year, of which Rs. 5,76,031 was borne by public funds. The Corporation free primary schools which are included in the above figure fell from 150 to 146 due to the amalgamation of some of their schools. The Corporation of Calcutta gave a start to the scheme for the introduction of free and compulsory primary education of all boys between the ages of 6 and 10 in Ward IX of the city.

9. **Night and continuation schools.**—On the 31st March 1935 the Presidency had 891 night schools with 22,349 pupils in them. These schools sit in the evening for about two hours daily and are attended mostly by adults, who owing to their occupations are unable to go to school during the day.

As in the previous year, continuation schools (which exist in the Presidency Division and Calcutta only) continued to be of two types the first type, or group I schools which teach the 3 R.'s being meant for boys, and the second or group II schools for adults. The latter teach Arithmetic and a language besides a technical or commercial subject. On the 31st March there were altogether 260 continuation schools in Bengal attended by 7,157 pupils. It is essential that adequate measures should be taken to spread adult education.

10. **Examination.**—In the year under report 25,146 boys appeared in the primary and maktab final examinations, of whom 19,155 were declared successful. In the previous year the corresponding figures were 19,683 and 14,215 respectively.

11. **Double-shift system.**—The experiment was continued in 5 Biss' type schools in the district of Bogra in the year under review. The average number of pupils per school was 165 against 175 in the previous year. The District Inspector, Bogra, is of opinion that these schools are doing better work than the ordinary primary schools of the district.

12. **School post offices.**—The number of primary school teachers who worked as post masters during the year under review was 282 against 356 in the previous year. The remuneration of postal work varied from Rs. 5 to Rs. 15 a month.

13. **Control by district boards and district school boards.**—The most notable event during the year under report was the inauguration of District School Boards in the districts of Mymensingh, Chittagong, Pabna, Dinajpur, Noakhali, Bogra, Birbhum, Dacca, Nadia and

Murshidabad in accordance with the optional scheme framed by Government under the Rural Primary Education Act, 1930. These district school boards have taken over the entire control of primary education from the district boards. The money which the school boards have at present for running the primary schools consists of the Government grants and the amount spent by the district boards themselves for primary education. Until the cess is levied there will be no income to pay for the establishment of the School Boards. Government are therefore advancing money for the purpose which is to be recouped when the cess is imposed. The initial experience gained by these district school boards will prove of great use when the Act is in full operation.

14. **Teaching and curriculum.**—In most of the primary schools one teacher has to take 3 classes at a time. Untrained as they are in the method of "plural teaching" they cannot give adequate attention to the infant class where the best teaching is necessary. Besides, most of the teachers do not even get a living wage. They have therefore no other alternative but to supplement their slender income in other ways to the almost certain detriment of their work.

There was no change or modification of curriculum during the year under report. The existing course is generally regarded as too heavy and wide for the average village boy.

15. **Training of teachers.**—The total number of Guru and Muallim Training Schools, which train teachers of boys' primary schools and maktabs remained stationary at 85 but the number of pupils attending them fell from 2,241 to 2,195. Of the Guru and Muallim Training Schools, 79 were managed by Government, 1 by the Corporation of Calcutta and the rest by the missionary societies. The total maintenance charges amounted during the year under report to Rs. 348,152.

16. The distribution of primary grants is often delayed mainly owing to large number of separate grant heads. Steps are proposed to be taken so that at least half the amount of the primary grants is paid early in the year.

CHAPTER IV.

Secondary Education.

1. **General.**—The following table which includes figures for secondary schools both for boys and girls (whether Indian or European) shows that the total number both of institutions and pupils increased in comparison with those of the previous year:—

	1933-34.	1934-35.
High English schools	1,221	1,249
Middle English schools	1,889	1,893
Middle Vernacular schools	60	52
Number of pupils	463,060	480,966
Cost of maintenance	Rs. 1,53,76,660	1,58,78,355

The only decline occurs in the case of middle vernacular schools.

Secondary education of Indian boys.

(The secondary education of Indian girls and of Europeans is dealt with in other chapters.)

2. **Schools and pupils.**—The total number of secondary schools for Indian boys rose during the year under review from 3,003 to 3,012. High schools increased from 1,133 to 1,151; while middle English schools and middle vernacular schools fell from 1,817 to 1,815 and 53 to 46, respectively. Pupils reading in high and middle English schools rose by 7,534 and 4,648 respectively, while middle vernacular schools reported a loss of 310 pupils.

3. **Expenditure.**—The total direct expenditure on secondary schools for Indian boys amounted during the year under review to Rs. 1,31,21,179 as compared with Rs. 1,26,59,618. Of the total expenditure Rs. 21,25,807 or 16·2 per cent. came from public funds and Rs. 1,09,95,372 or 83·8 per cent. came from private sources as compared with Rs. 2,096,692 or 16·6 per cent, and Rs. 1,05,62,926 or 83·4 per cent .respectively in the previous year. High English schools cost during the period Rs. 1,02,03,713, middle English schools Rs. 28,70,525 and middle vernacular schools Rs. 46, 941; the corresponding amounts in the previous year were Rs. 97,87,952, Rs. 28,18,912 and Rs. 52,754 respectively.

4. In spite of the distinct rural and agricultural character of the Province the middle vernacular schools in which boys might obtain a good general grounding have never been popular. The vernacular system of education which should be the prop and stay of rural development tends more and more to deteriorate. The thought of matriculation still dominates with the result that a very large number of students whatever be their bent and competence flock to secondary English schools; indeed no education even in the primary classes is popular in Bengal unless it includes some teaching in English.

5. **Manual instruction.**—Fifty high and middle English schools had arrangements for giving manual instruction to their pupils but other secondary schools also are reported to be teaching subjects like carpentry, smithy, weaving, dyeing, etc. These schools may, if properly handled, add variety and interest to school life by relieving the monotony and humdrum routine of the ordinary course.

6. **Agricultural education.**—In pursuance of the scheme sanctioned by Government for introduction of agricultural education in non-Government secondary schools the monthly allowance of Rs. 10 each payable to the teachers trained in agriculture was renewed in favour of 52 teachers according to the recommendation of the Director of Agriculture. The schools which suffered loss on working of their farms or gardens also got a grant up to the maximum of Rs. 100 in case of a farm and Rs. 20 in case of a garden. The question of the training of further batches of teachers from the existing schools in order to keep a reserve of teachers is under the consideration of Government.

7. **School final classes (Science side).**—School final classes do not attract best boys although they provide instruction in a course of science deliberately framed. The science course classes attached to 7 Government high schools in the Presidency had an enrolment of 99

pupils on the 31st March 1935. Out of 36 candidates who were sent up for the school final examination (Science side), 28 were successful.

8. **Results of Matriculation Examination.**—Out of 23,892 boys who appeared at the Matriculation Examination of the University of Calcutta and at the similar school-leaving examination of the Dacca Board of Intermediate and Secondary Education of 1935, 14,272 were declared to have passed. The corresponding number in 1934 were 20,441 and 12,743 respectively.

9. **Grants-in-aid system.**—The system of grants-in-aid and the principle of distribution have not undergone any radical change. The reduction of 10 per cent. emergency cut on grants affected the efficiency and the morale of secondary schools. In view of the peculiar circumstances brought about by the widespread economic distress the rules regarding grants-in-aid had to be relaxed in favour of certain deserving schools.

10. **Control.**—Over this enormous mass of institutions there is no well-organised control. Many of them are private schools and many receive no grant from public funds and escape even that measure of supervision which the receipt of grant entails. Over the high schools there has been a divided control which has long proved unsatisfactory and detrimental to any thorough reorganisation of secondary schools.

11. **Curriculum.**—The new curriculum of secondary schools of Bengal which came into force in 1931 was followed in all schools during the year under review. The teaching of science has made little progress for want of necessary apparatus and teachers for the purpose.

12. **Teachers.**—There were 25,778 male teachers in secondary schools on 31st March 1935. Of them 4,972 were trained as against 20,806 untrained. The private schools have been generally staffed by teachers who are often neither numerous enough nor sufficiently qualified, trained or well paid nor so imbued with a sense of vocation as to be equal to the high responsibilities.

13. **Training of teachers.**—The two Government training colleges at Calcutta and Dacca which train English teachers of secondary schools together registered 173 students on 31st March 1935. All the students except one read the B. T. Course. The cost of maintaining these two colleges amounted during the year under report to Rs. 1,13,422 as compared to Rs. 1,04,697 in 1933-34. Out of 197 students who sat for the B.T. Examination 130 were successful.

On the 31st March 1935, there were 5 normal or first grade training schools in the Presidency; all of these (one in each division) are maintained by Government. These schools are for those intending to become junior teachers in secondary schools. The normal schools registered 394 pupils on 31st March 1935. The cost of maintaining these schools amounted during the year under review to Rs. 1,23,195, nearly the whole of which was contributed from Provincial revenues. Out of 167 students who sat for the examination 141 passed.

The condition of secondary schools, specially in the rural areas, did not improve owing mainly to the depressing economic condition of the villages. The unequal distribution of schools in various localities resulting in an unhealthy rivalry to attract more pupils aggravated the distress. The one-sided system of education provided in secondary schools—the main object of which is to help the students in passing

an examination—proved ineffective to solve the present-day needs. An equitable distribution of schools, based on local requirements in the rural areas—modification of the present curriculum—more extensive provision for manual work are the measures required to make secondary education more popular and effective.

CHAPTER V.

College and University Education.

(*a*) **Colleges.**—The total number of arts colleges in the Presidency remained stationary at 51 during the year. Of these colleges 44 were for men and 7 for women against 45 and 6 respectively in the previous year. The decrease in the number of arts colleges for men was due to the exclusion of the St. Joseph's College, Darjeeling, which had no students in the college department this year owing to the earthquake of 1934 and the increase in the number of arts colleges for women being due to the inclusion of the Kamrunessa Intermediate College, Dacca, which was recognised by the Board of Intermediate and Secondary Education, Dacca. The enrolment of arts colleges increased from 23,023 to 24,403 and the cost of maintenance fell from Rs. 36,18,352 to Rs. 36,17,893. Of the men's colleges, 10 (including the Islamic Intermediate Colleges) were maintained by Government, 20 received aid from the department and 14 were unaided. The following tables give comparative figures of enrolment and maintenance charges of arts colleges for men for the last two years:—

Number of students—

	1933-34.	1934-35.
Hindus	18,878	19,964
Moslems	2,990	3,226
Others	559	556
Total ..	22,427	23,746

Expenditure on arts colleges for men—

	Rs.	Rs.
Provincial revenue	12,05,403	11,03,774
District and Municipal funds	5,133	4,455

Other sources	2,96,199	2,91,931
Total ..	34,68,041	34,46,470

A sum of Rs. 2,30,308 was distributed by the department in the year under report in giving grants to private colleges. Financial stringency was responsible for the continuance of the 10 per cent. cut

on all grants. But it was possible to distribute Rs. 45,000 among non-Government colleges on the recommendation of Calcutta University for the improvement of libraries, laboratories and gymnasia as against the original assignment of Rs. 1,29,000.

2. *Government colleges.*—The number of students reading in Government arts colleges for men rose from 3,508 to 3,855 during the period. The maintenance of these colleges cost Government Rs. 13,24,156 in the year under review of which Rs. 8,65,749 was provided from Provincial revenues, so that the average annual cost of educating a student was Rs. 343 of which Rs. 224 was met from Provincial revenues.

The system of tutorial supervision over college students which was introduced in the preceding year in first grade Government colleges was extended during the year under review to all Government colleges. The system is reported to have worked smoothly and produced generally satisfactory results bringing the students and the teachers in closer personal contact. The figures for individual colleges are given in the subjoined table:—

Figures relating to Government colleges for men.*

*Islamic Intermediate Colleges maintained by Government are dealt with in Chapter IX.
†Includes 118 post graduate students.

The most remarkable event of the year under review was a visit to the Dacca Intermediate College by Their Excellencies Lord and Lady Willingdon, accompanied by His Excellency Sir John Anderson, on the 8th January 1935. The hostel building of the Dacca Intermediate College was made over to the Military authorities, their quarters at Amlapara having been damaged by a cyclonic storm and the hostels of the college were removed to the University Hall.

Founder's day at Presidency College was duly observed in the presence of distinguished gathering. His Holiness Syedana Tahir Shifuddin Sahib paid a visit to the Islamia College during the year

under report and generously gave a donation of Rs. 1,000 to the College Duty Fund. The research department of the Sanskrit College continues to be a centre of attraction for senior scholars of Indian and foreign universities on philosophical and indological subjects. The scheme for the establishment of an agricultural institute attached to the Rajshahi College has been successfully pursued. The Institute will be opened in July 1936.

A long-felt want has been removed by the electrification of the Chittagong College building. The Muslim hostel of the Krishnagar College is going to have shortly a building of its own.

There was demand for extended affiliation in some of the colleges especially in Civics in I.A. and Economics (Hons.) in B.A. Affiliation in I.A. Civics and B.A. (Hons.) Economics was obtained by the Rajshahi College and in B.A. Bengali as a second language by the Chittagong College just after the close of the year.

3. *Non-Government colleges.*—Besides the colleges maintained by Government there were 34 other arts colleges for men in the province, 20 received a regular monthly grant-in-aid from public revenues, and 14 were maintained entirely from private sources.

In the aided colleges the number of students rose from 10,218 to 10,633 and the cost of maintenance from Rs. 12,32,958 to Rs. 12,94,754 towards which Provincial revenues contributed Rs. 2,30,767.

The new building of the St. Xavier's College was opened by the Hon'ble Minister of Education. There has been a notable increase in the number of women students, joining the Scottish Church College, Calcutta, the Brojomohun College, Barisal, and the Ananda Mohan College, Mymensingh.

The Serampore College celebrated the centenary of the death of its founder Dr. Carey.

For obvious reasons many guardians send their more intelligent wards to Calcutta or other famous towns with the result that the roll strength of colleges in mufassal suffers.

In the unaided Colleges the total number of students rose from 8,701 to 9,258 and the cost of maintaining them from Rs. 8,24,753 to Rs. 8,27,560. Some of the colleges in Calcutta are too large to permit of effective personal guidance or tutorial help. Many of these have no adequate playing fields. Few of them have been able to create any corporate tradition or attract any deep sense of loyalty.

(*b*) **Universities.**—Sir Hasan Suhrawardy, KT., O.B.E., M.D., remained as Vice-Chancellor of Calcutta University up till 7th August 1934 when he was succeeded by Mr. Syamaprasad Mookerjee, M.A., B.L., BARRISTER-AT-LAW, M.L.C. The late Babu Ram Charan Mitra, C.I.E., had left a legacy of Rs. 10,000 to the University for the purpose of development of Industrial Education in this country. The legacy was accepted with thanks by the Syndicate on the 14th November 1934. A committee was appointed by the Syndicate to consider the question of completion of the fourth story of the Asutosh Building. The building and equipment of the proposed 3rd floor will cost about Rs. 1,20,000 and the Senate at its meeting on 29th September 1934 sanctioned this expenditure. The following comparative table shows the number of

students (both post-graduate and undergraduate) reading in the University of Calcutta during the last 2 years:—

	1933-34.	1934-35.
In M.A. classes	1,115	723
In M.Sc. classes	239	252
Under-graduate students	154	169
Women students	58	40

There was a marked decrease in the number of students in the M.A. classes. It is not likely that there will be an appreciable improvement in the number of students while the present economic distress continues.

The most important change in the staff of the Dacca University during the session is the retirement of Professor G. H. Langley from the Vice-Chancellorship and the appointment of Mr. A. F. Rahman in his place. The executors of the Will of late Babu Jagamohan Pal have agreed to place at the disposal of the University a sum of Rs. 4 lakhs for a medical college to be started at Dacca in the name of the late Jagamohan Pal. The number of students under training in Dacca University rose from 984 to 986 on the 31st March 1935; of this number 542 (including 37 women students) were reading for Arts Degrees, 233 for Science Degree, while 135 were in the Law Department 50 in the Commerce Department and 26 engaged in Research. The Halls (including the women's hostel) had 365 students in residence on 31st March 1935.

(*c*) **Board of Intermediate and Secondary Education, Dacca.**—The Dacca Board has completed the 15th year of its existence. The most notable change during the period under review was that the Government gave effect to the proposal of appointing the Vice-Chancellor of the Dacca University as the Honorary Chairman of the Board. The cost of maintaining the Board amounted in the year under report to Rs. 44,510 of which Rs. 6,033 was met from Provincial revenues. Excluding the Islamic Intermediate Colleges at Dacca, Chittagong and Serajganj the number of Intermediate colleges remained unchanged at 5. Two of these colleges, viz., Dacca Intermediate College and Eden Intermediate College for girls are maintained by Government the Jagannath Intermediate College received aid from the department.

CHAPTER VI.

Professional and Technical Education.

1. **Law colleges and classes.**—Facilities for the study of law were afforded, as previously, by three institutions in the Presidency, viz., the University Law College, Calcutta, the Ripon Law College, Calcutta, and the Law Department of Dacca University. The total enrolment of the 3 institutions declined further from 2,214 to 1,990. The total cost of maintaining the University Law College, Calcutta, and the Ripon Law College fell during the period under review from

Rs. 2,17,946 to Rs. 2,05,996. The cost of maintaining the Law Department of Dacca University which has not been shown separately in the University returns, is included in General Tables under the head "Universities". Altogether 1,214 students appeared in the Final, B.L. Examination from the 3 institutions, and of these 519 were successful

2. **Medical colleges and schools.**—Advanced medical education was provided, as previously, by three institutions, viz., Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene. These institutions had 1,461 students (including 16 women) on 31st March 1935 as compared with 1,413 (including 16 women) on the corresponding date of the preceding year. The cost of maintaining the three institutions rose during the year from Rs. 8,60,080 to Rs. 9,32,462. The three institutions sent up altogether 554 students for the Medical Examinations of whom 227 were declared to have passed.

The number of recognised medical schools in Bengal was nine as before. The total enrolment of these schools fell from 2,535 (including 40 women) to 2,478 which included 45 women. The cost of maintaining medical schools rose during the period from Rs. 5,61,537 to Rs. 5,84,173. Of the 1,424 candidates who presented themselves at the examination from medical schools, 712 came out successful.

3. **Veterinary College, Belgachia.**—The Veterinary College had 170 students on 31st March 1935 against 184 on the corresponding date of the previous year. The cost of maintaining the college fell during the period under review from Rs. 1,82,571 to Rs. 1,74,760 which was met entirely from Provincial revenues. Out of 169 students, who appeared in the annual examination during the period, 132 were successful.

4. **Bengal Engineering College.**—In the Bengal Engineering College, Sibpur, enrolment fell from 283 to 260 (of whom 148 were in the Civil Engineering Department, 68 in the Mechanical and Electrical Engineering Department and 44 in the Industrial Department). Of the total roll-strength 5 were Europeans and Anglo-Indians, 210 Hindus, 41 Muslims, and 4 of other communities. The cost of maintaining the college fell during the period from Rs. 3,69,330 to Rs. 3,53,859 of which Rs. 2,94,336 as compared with Rs. 3,07,346 was borne by Provincial revenues. The average annual cost of educating each student amounted to Rs. 1,325 of which Rs. 1,102 was borne by Government. The results of the college in the various examinations held during the period under review are noted below:—

Examinations.	Examinees.	Passes.
B. E. (Civil Engineering)	34	29
B. E. (Mechanical Engineering)	13	12

5. **Ahsanullah School of Engineering.**—In this school enrolment fell from 409 to 395 (177 in the Overseer classes, 145 in the Sub-Overseer classes and 73 in the Artisan classes). Of the total number

316 were Hindus, 76 Muslims and 3 of other communities. The cost of upkeep rose during the period under review from 1,28,652 to Rs. 1,36,469 of which Rs. 91,465 against Rs. 84,580 was provided from Provincial revenues. Eighty-four out of 108 students passed the Overseer Examination and 72 out of 98 students passed the Sub-Overseer Examination from this school.

6. **Bengal Survey School.**—The enrolment of Bengal Survey School, Mainamati, remained stationary during the period at 55. The cost of maintaining the school fell from Rs. 19,672 to Rs. 18,995 of which Rs. 14,391 was met from Provincial revenues. The school passed 20 out of 22 students in the Survey Final Examination and 27 out of 32 students in the Amin Examination.

7. **Art schools.**—The number of Art schools in the Presidency remained unchanged during the year at five of which one was managed by Government and two were aided. The roll strength of the Government School of Art increased slightly from 280 to 281 of whom 268 were Hindus and 10 were Muslims, the rest being of other communities. The cost of maintaining the school also rose during the period from Rs. 41,843 to Rs. 52,211 of which Rs. 38,384 was met from provincial revenues. Of the 25 students who sat for the Final Examination during the period, 21 were successful.

8. **Commercial institutions.**—Facilities for advanced commercial education were provided, as before, by the two Universities, and the Commerce Department of Vidyasagar College, Calcutta. Instruction in I. Com. is imparted by Jagannath Intermediate College, Dacca. The four institutions reported 1,023 students on 31st March 1935 against 876 in the preceding year. Altogether 29 students sat for the M. Com., 294, for the B. Com. and 53 for the I. Com. Examinations during the year under review of whom 23, 150 and 37 respectively were declared successful.

The number of commercial schools returned on 31st March 1935 was 22 as in the previous year, of which one was managed by Government, and two were aided. In the Government Commercial Institute, Calcutta, enrolment increased during the period from 396 to 441 of whom 409 were Hindus, 18 were Muslims and the rest of other creeds. The cost of upkeep fell from Rs. 58,877 to Rs. 55,998 of which Rs. 27,457 was borne by provincial revenues. Ninety-seven students of the school sat for the Final Commercial Course Examination of whom 77 passed. In the Special Commercial Examination 72 candidates appeared of whom 42 were successful. For the encouragement of commercial education among backward communities, Government have sanctioned the creation of 2 stipends of Rs. 12 a month each tenable for 2 years at the Government Commercial Institute, which are to be awarded to students of backward communities.

9. **Weaving schools.**—Of the weaving schools some are permanent as stated in previous reports, while others are peripatetic. The Government Weaving Institute, Serampore, which imparts up-to-date instruction in weaving, registered 161 pupils on 31st March 1935 against 156 in the preceding year. The cost of maintaining the institute increased during the year from Rs. 39,217 to Rs. 41,382 of which Rs. 39,986 was borne by Provincial revenues. Sixty-eight out of 73 candidates passed the Final Examination of the institute.

10. **Music schools.**—During the year under review, there were 7 music schools in the Presidency as previously of which 6 received aid from public funds. Three of these schools were meant for boys and 4 for girls. Altogether 340 pupils attended music schools on 31st March 1935 as compared with 328 in the preceding year.

11. **Agricultural schools.**—There is no institution in this Presidency for imparting advanced instruction in agriculture. In the chapter on secondary education an account has been included showing the arrangements which have been made by the department for giving agricultural education in general schools. The number of agricultural schools proper were six during the year as previously of which two were managed by Government and three were aided. These schools registered 278 pupils on 31st March 1935 against 279 in the previous year.

12. **Other technical centres.**—Among technical and industrial schools most of which are controlled by the Director of Industries, the following may be specially mentioned in this report:—

(*i*) In the Calcutta Technical School enrolment rose during the year from 164 to 182. The cost of maintaining the school also increased from Rs. 49,426 to Rs. 57,242 of which Rs. 35,079 was met from public funds. Out of 68 candidates who registered for the annual entrance examination, 60 were successful. Four out of 8 students passed the Electrical Wiremen Course Examination. The Plumbing and Sanitary Fitting Course, which is of 3 years' duration, has been made compulsory for those who seek registration as recognised plumbers.

(*ii*) In the Kancharapara Technical School roll strength was stationary at 78. The cost of maintenance fell during the period from Rs. 90,350 to Rs. 84,727 of which Rs. 29,727 was borne by Provincial revenues. Of the 59 candidates who appeared at the Board of Apprenticeship Training Annual Examination, 39 were declared to have passed.

(*iii*) The B. N. R. Technical School, Kharagpur, registered 55 apprentices on 31st March 1935 against 51 in the previous year. The cost of maintaining the school was Rs. 4,546 against Rs. 5,072 of which Rs. 1,476 was borne by public funds. Of the 58 apprentices who appeared in the Board of Control's Technical School Examination, during the period under review 34 came out successful.

CHAPTER VII.

Education of Indian Girls and Women.

1. At the end of the year 1934-35 the total number of educational institutions of all types and grades meant for Indian girls fell from 19,427 to 19,217, but the number of pupils attending them rose from 536,168 to 555,835. Thus while there was decrease in the number of institutions by 210 that of pupils attending them increased by 19,667. Girls reading in girls' schools together with those under instruction in boys' schools numbered 689,141 on the 31st March 1935; of this total 295,296 were Hindus, 382,900 were Muhammadans and the rest were of other communities. Altogether 10,892 boys were attending girls' schools during the year.

2. **Controlling Agency.**—There were, as previously, 2 Inspectresses and 12 Assistant Inspectresses of Girls' Schools in the Presidency. These officers were distributed equally between East and West Bengal.

3. **Collegiate Education.**—During the year under report the number of Art Colleges for Indian women rose from 6 to 7 including the Women Section of the Vidyasagar College, which counts as a separate unit and the Kamrunnesa Intermediate College for Girls, Dacca, recognised by the Dacca Board of Intermediate and Secondary Education. Two of the arts colleges for women, viz., Bethune College, Calcutta, and the Eden Intermediate College, Dacca, are as before, directly managed by Government and the rest are under private management, one, viz., the Diocesan College being aided. The women colleges registered 657 pupils on 31st March 1935 as compared with 596 on the corresponding date of the previous year. The following table shows the enrolment and the cost of maintenance of each of the women's colleges. Besides this number there were 569 girls reading in arts colleges for men and in the University classes. The demand for college education is steadily increasing among Indian girls.

*The authorities of the Diocesan College were unable to furnish expenditure figures as the college has closed.

In the Bethune College roll strength increased by 56 and the increase being accompanied by a considerable reduction in the average cost per girl. The Principal is of opinion that, in arts, affiliation should be secured in Bengali up to B. A. standard and in Science it should be extended up to the B.Sc. standard.

The Bethune Memorial Day was observed on the 12th August 1934 by prayers at the tomb of Mr. Drinkwater Bethune in the morning and a meeting in the afternoon in which the teachers and the students placed on record their affection and veneration for the departed great. The college passed 8 out of 11 girls in the B.A. Examination; in the Intermediate Examination the college passed 26 out of 32 girls in Arts and 10 out of 13 girls in Science.

The Eden Intermediate College, Dacca, continues to occupy rented buildings. The diminution in the roll number of the college is attributed to the starting of a private college at Dacca. Of the 48 students who appeared in the last Intermediate Examination in Arts, 42 passed.

The Diocesan College passed 16 out of 20 students in the B. A. and 18 out of 18 students in the I. A. Examinations. In view of the decision of the Diocesan authorities to close their girls' college in Calcutta, there was an endeavour to establish a girls' college in South Calcutta in the Hastings House of the Government of India, but the scheme had to be dropped because the Hastings House could not be spared for the purpose.

The Loreto House presented 9 students in the B. A., 29 students in the I. A. and 4 students in the I. Sc. Examinations, of whom 7, 26 and 2 respectively were successful. The Victoria Institution passed 8 girls out of 20 who appeared at the I. A. Examination.

4. **Secondary schools**—(*i*) *High schools.*—The number of high English schools for Indian girls rose in the year under report from 44 to 54; the starting of new high schools for girls and conversion of some middle English schools in Calcutta and Jessore account for the increase. Of these schools five are, as previously, maintained by Government, 41 are aided by the department and the rest are unaided. The total number of girls reading in high schools also increased from 13,212 to 16,404. In the Matriculation Examination held in 1935, 812 girls out of 1,523 were successful; the corresponding figures in the previous year were 609 and 1,047 respectively.

The Inspectress of Schools, Dacca Circle, remarks that the practice of training girls in boys' institutions and of turning them out of schools just before boys' instruction begins is far more harmful than a system of co-education.

(*ii*) *Middle Schools.*- The number of middle English schools for Indian girls rose during the year from 70 to 76. Girls reading in middle English schools numbered 11,764 against 10,699 on the 31st March 1934. The number of middle vernacular schools for girls, however, declined from 7 to 6; these schools taught 798 girls as compared with 810 girls in the preceding year.

High schools for girls cost Rs. 9,49,162 and middle schools Rs. 3,46,948 during the year of which Rs. 3,47,108 and Rs. 1,34,770 respectively came from public funds.

5. **Primary Schools.**—At the close of the year under review there were 18,703 primary schools of all types for Indian girls as compared with 18,871 in the previous year. Primary schools registered 638,915 girls on 31st March 1935, against 603,829 in the previous year. The number of punchayati union schools for girls stood at 168 on the 31st March 1935. The free primary schools for girls managed by the Corporation of Calcutta rose during the year from 85 to 86 and they taught 13,360 pupils as compared with 12,785 in the previous year. For the education of peasant girls in remote places there were 22 peasant girls' schools in the Presidency Division. The work of the Nari Siksha Samiti, the Society for the Improvement of Backward Classes, Bengal and Assam Brahmo Somajes and Christian Missionary Societies deserves special mention in connection with the expansion of the girls' education both primary and secondary. They have started schools in localities where the lower classes of society, who are generally illiterate, constitute the bulk of the population. The Society for the Improvement of

Backward Classes which receives from the department a substantial grant for their educational activities managed 116 girls schools during the period under review. The Uttarpara Hitakari Sava continues to encourage female education by holding examinations and awarding scholarships to girls. Primary schools for Indian girls cost Rs. 15,17,077 during the year under review to which 10,28,623 was contributed from public funds.

6. **Special schools.**—In 1934-35 the number of technical, industrial and other special schools increased from 46 to 54; these schools taught altogether 3,298 pupils as compared with 2,789 pupils. Most of these schools are under mission management and they usually teach needle-work of various kinds, lace making and embroidery, besides giving some general education.

7. **Needle work.**—There has been marked improvement in the quality of needle-work done in girls' schools which is due mainly to the able guidance of the peripatetic teachers. The institution of the Lady Carmichael Diploma has also stimulated a desire for improving the work.

8. **Curriculum.**—The curriculum is much the same as in boys' schools, with the addition of a few subjects like needle-work and domestic economy. These subjects, however, cannot be taught in many rural schools which have no women teachers. The curriculum is probably too literary for the majority of girls who do not proceed to higher studies.

9. **Training of teachers.**—There is no Government training college for women. The authorities of the Diocesan College have closed down their training department during the year under review and the Scottish Church College has now taken up the training of women teachers in its stead. Women teachers of secondary schools received professional training also in the training department of the Loreto House. The combined capacity of these two is 59.

The number of training schools and classes which afford training facilities to women teachers employed in primary schools and the lower classes of secondary schools remained stationary at 10. Of the training schools three were as before directly managed by Government and seven by Christian and Brahmo Missions. The women's training schools registered 271 pupils as compared with 256 in the preceding year. The total cost of maintaining the training schools for women amounted in the year under report to Rs. 82,431 of which Rs. 67,270 was met from Provincial revenues.

The demand of trained teacher is daily increasing and the output is altogether insufficient to cope with the growing demand.

The following table shows the number of trained women teachers in high, middle and primary schools:—

Women teachers.

	Total number of teachers.	Number of trained teachers.
Primary schools	5,775	605
Middle schools	459	257
High schools	597	178

CHAPTER VIII.

Education of Anglo-Indians and Europeans.

1. **Schools.**—On the 31st March 1935 there were, as in the previous year, 67 institutions in Bengal for the education of Anglo-Indian and European children. Of the 67 institutions, 64 are for general education and 3 impart special instruction. Of the 64 institutions which provide general education 24 may be classified as secondary, 19 higher grade, 20 primary and 1 ungraded school. The 3 institutions which impart special instruction are (1) the Commercial and Technical classes attached to the Young Women's Christian Association, Calcutta, (2) the Dow Hill Training College, Kurseong, and (3) the Children's House, Kurseong, which is intended for backward and mentally defective children. Three of the institutions, viz., Victoria Boys' School and Dow Hill Girls' School, Kurseong, for general education and Dow Hill Training College, Kurseong, for the training of school mistresses are directly managed by Government; the rest are managed by various religious and philanthropic societies and the railway authorities.

2. **Pupils.**—The following table shows the distribution of the 67 institutions under various agencies together with their roll strength :—

	1933-34.		1934-35.	
	Number of schools.	Number of pupils.	Number of schools.	Number of pupils.
Government	3	385	3	416
Church of England	9	1,817	9	1,885

Seventh Day Adventists	..	..	1	27
	67	11,458	67	11,853

There was thus an increase of 395 pupils reading in schools for Anglo-Indians and Europeans on 31st March 1935. Of the 11,853 pupils, 6,505 were boys and 5,348 were girls as compared with 6,191 boys and 5,267 girls in the preceding year; thus the number of boys increased by 314 while the number of girls by only 81. Non European pupils reading in European schools numbered 2,667 against 2,556 in the preceding year; of these 1,154 were Indian Christians, Jews, Armenians and others.

3. **Expenditure.**—The total cost of maintaining schools for Anglo-Indians and Europeans amounted during the year under review to Rs. 37,63,235 (including boarding charges of Rs. 10,26,276 as compared with Rs. 10,58,215 in the previous year). The amount was derived from the following sources:—

	1933-34.	1934-35.
	Rs.	Rs.
1. Provincial revenues	8,41,463	9,87,878
2. Municipal grant	44,505	37,936
3. Fees	15,94,025	15,74,950
4. Subscriptions and donations	11,12,768	11,62,471
Total	35,92,761	37,63,235

There was an increase in subscriptions, donations and contributions from Provincial revenues but a fall in fee income and in municipal grants.

4. **Scholarships.**—An expenditure of Rs. 28,383 as compared with Rs. 28,039 in the previous year was incurred during the year 1934-35 for the award of scholarships to pupils of European schools. This figure excludes the amount of scholarships which were awarded by other provinces but paid in Bengal.

5. **Teachers.**—There were 797 teachers employed in European schools during the year ending 31st March 1935 as compared with 795 in the previous year. Of these teachers 157 were graduates (of whom 93 were trained teachers) and 443 were trained teachers (including 93 trained graduates), 354 (including 64 graduates) were untrained.

6. **Training of teachers.**—On account of the prevailing financial depression no European or Anglo-Indian male teacher was deputed to the Chelmsford Training College Ghoragali, Punjab, for training during the year 1934-35. A proposal has now been made by the Provincial Board of Anglo-Indian and European Education to formulate a scheme for training Anglo-Indian and European male teachers at the David Hare Training College, Calcutta.

The Dow Hill Training College, Kurseong, which is the only institution for the training of European and Anglo-Indian women teachers in Bengal had 19 students on 31st March 1935 as compared with 17 on the corresponding date of the previous year. In the annual examination of the second-year students in November 1934, 9 senior students presented themselves and all of them were successful.

7. **Examinations.**—The following table shows the result of the various examinations held in 1933-34 and 1934-35:—

	1933-34.				1934-35.

8. **Education of subnormal children.**—The Children's House, Kurseong, which adopts special methods for training mentally and physically defective European children, registered 23 pupils on 31st March 1935 as compared with 24 pupils in the previous year. Stipends amounting to Rs. 2,520 were awarded by the department during the year under review for the maintenance and education of the children living in the House.

9. **Trust Funds.**—(*1*) *Sussex Trust.*—The income of the fund was Rs. 28,436 during the year 1934-35 and the expenditure for the same period was Rs. 17,811-15; seven overseas scholars and twenty local scholars profited by the scholarships awarded. An expenditure of Rs. 4,166-2 was incurred in connexion with the award of scholarships under the head "Special Endowwment G—Overseas scholarships for European and Anglo-Indian Girls (ex-students of the Dow Hill Traning College Kurseong)." Besides a sum of Rs. 27,500 was spent out of this trust fund on account of the construction of primary school for Indian boys at Kidderpore.

(*2*) *Doveton Trust Fund.*—The total receipts including the opening balance on 1st April 1934 and the interest accruing on Government securities during the year under report was Rs. 9,074-9-8 and the total expenditure for the same period was Rs. 6,488-0-6 leaving a closing balance of Rs. 2,586-9-2. Altogether 43 scholarships were awarded during the year out of the income derived from the fund. The Inspector of European Schools, Bengal, was administrator of the fund as previously.

10. **Controlling Agency.**—During the year under review Mr. T. G. Barker continued to act as Inspector of European Schools, Bengal, up to 3rd December 1934 when Mr. R. Woltenden, of the Indian Educational Service, succeeded Mr. Barker and continued to work during the rest of the year.

11. **European Schools Code.**—Owing to financial stringency it was not possible during the year under review to give full effect to the provisions of the revised Code of Regulations (1929) for European Schools, which led as in the previous year to a reduction in the amount admissible for maintenance, teaching staff and fixed grants to European schools in the Presidency.

12. **His Excellency the Governor's Calcutta European schools' Emergency Fund.**—During the year under review 221 Anglo-Indian and European children reading in 21 schools were assisted to the extent of Rs. 19,035 out of this fund. It would have been impossible for these students in these days of financial depression to continue their education without this help. His Excellency the Governor has kindly assented to this fund being continued for another year and an appeal has been made to the European clubs to subscribe again to this fund which has given such valuable help to European and Anglo-Indian children whose parents have been thrown out of employment owing to the financial depression.

13. **Earthquake.**—Many European schools in the hills suffered from the effect of the earthquake in January 1934. A sum of Rs. 1,77,775 was granted for repairs to 4 hill schools by the Viceroy's Earthquake Relief Fund.

14. **Board of Anglo-Indian and European Education.**—The most important event of the year under review has been the Constitution of the Board of Anglo-Indian and European Education which will have a marked influence on the development of Anglo-Indian and European education in the future. The duty of the Board is (1)to make recommendations to the Inter-Provincial Board in matters of the courses of instruction, system of examination, condition of recognition of schools and the provisions of the Code of regulations for European Schools, (2) to make recommendations to the Local Government for giving effect to the recommendations of the Inter-Provincial Board and (3) to examine and submit views on that part of the education budget which relates to the Anglo-Indian and European Education, and (4) to examine and submit views on the schedule of new demands in the Education Budget. It is too early now to say much about its work in this report but the Board has started on its course with energy and thoroughness and is investigating many important problems concerning the education of the Anglo-Indian and European students.

CHAPTER IX.

Education of Special Communities.

1. **Education of Muhammadans : Statistics.**—During the year under review the total number of Muslim students reading in all grades of educational institutions for Indians rose from 1,541,342 to 1,598,675. Of the total number 1,215,775 were boys and 382,900 were girls as against 1,131,780 boys and 295,296 girls belonging to the Hindu community returned on 31st March 1935. The proportion of Muslim

students to the total number of pupils under instruction at the end of the year rose from 51.9 per cent. to 53.3 per cent. The statistics for the last two years which are furnished in the following table show that the number of Muslim students increased in course of the year in all grades of institutions except professional colleges. The fall in the number of Muslim students in professional colleges is to be attributed mainly to the prevailing economic distress in the country, which has affected more particularly the Moslem community. In arts and professional colleges, Muslim pupils constituted 13.7 and 11.03 per cent. of the total enrolment against 13.3 and 11.5 per cent. respectively in the year preceding; in the high, middle and primary stages, their proportion to the total number of students under instruction were 21·4, 24·1 and 55·1 per cent. against 21·2, 24·6 and 5·01 per cent. respectively in the previous year; in special schools the proportion of Muslim students rose in the year under report from 69·3 to 70·3 per cent.

	1933-34.		1934-35.	
	Number of Muhammadan students.	Percentage.	Number of Muhammadan students.	Percentage.

2. **Special institutions for Muhammadans.**—Besides the ordinary schools and colleges which are open to students irrespective of caste and creed, special facilities for higher education are offered to Muslim boys by the Muslim Hall of Dacca University, and the Islamia College. The following lines briefly describe the progress achieved by Moslem students in the year under report in the special institutions of different types which are primarily intended for them: —

(*i*) *Islamic intermediate colleges.*—During the year ending 31st March 1935 the number of Islamic intermediate colleges in the province remained stationary at three, two of which are, as previously, Government managed and one is aided. The number of students in the 3 colleges rose from 154 to 166 on 31st March 1935. Of the 99 students that appeared in the Islamic Intermediate Examination in 1935, 73 were successful.

(*ii*) *Madrasahs.*—The total number of Madrasahs in Bengal fell in course of the year from 725 to 713, but the number of pupils attending them rose from 65,683 to 67,421. The total cost of maintaining madrasahs increased from Rs. 13,83,901 to Rs. 13,91,331 and the amount

of expenditure met from public funds from Rs. 4,88,107 to Rs. 4,98,076. The particulars in respect of each type of madrasahs are given below:—

	Number of Madrasahs	Number of pupils.	Cost of maintenance.	Cost met from public funds.
			Rs.	Rs.
(*a*) Reformed Senior (High) ..	37	6,284	2,78,885	1,39,591
(*b*) Reformed Junior	546	50,885	9,03,704	2,54,942
(*c*) Old Type Senior	48	6,204	1,83,497	98,894
(*d*) Old Type Junior	82	4,048	25,245	4,649
Total ..	713	67,421	13,91,331	4,98,076

In the High Madrasah Examination conducted by the Dacca Board, 495 students appeared and of these 265 were sucessful. It will be seen from above that the number of new scheme madrasahs has increased in the province.

The Government of Assam has introduced the reformed madrasah course of the Dacca Board in Government madrasah, Sylhet, with effect from the year under review. The Government of Bengal agreed to allow a representative of the Assam madrasah on the Board and the Principal of the Sylhet Government Madrasah was nominated by the Director of Public Instruction, Assam, to be a member of the Board. In the Junior Madrasah Examination held in November 1934 2,838 candidates appeared, of whom 2,285 passed. During the year under review two additional scholarships of the value of Rs. 5 per mensem each tenable for 4 years were created for award to the successful candidates in the Junior Madrasah Examination. A set of revised rules regulating the conduct of Junior Madrasah Examination was sanctioned in the year under review. The Title classes in Fiqh and Usul Group in the Calcutta Madrasah continued as a temporary measure as in the previous year. Of the 1,090 candidates who appeared during the period in the different examinations conducted by the Central Madrasah Examination Board, 507 were declared to have passed.

(*iii*) *Maktabs.*—In the year under review the number of maktabs fell from 26,743 to 26,649, of which 17,359 were for boys and 9,290 for girls. But the number of pupils reading in maktabs rose during the period from 931,765 to 965,987; of the total number of pupils 675,778 were boys and 290,209 were girls. The corresponding numbers in the previous year were 647,786 and 283,979 respectively. The total cost of maintaining maktabs fell in the period under report from Rs. 21,79,842 to Rs. 21,56,542 and the amount of expenditure met from public funds rose from Rs. 10,92,218 to Rs. 11,08,729.

(*iv*) *Quoran schools.*—The number of Quoran schools or unsecularised maktabs rose during the year under review from 359 to 364; these schools were attended by 9,875 pupils as against 8,451 pupils in the year preceding.

(*v*) *Muallim-training schools.*—The number of muallim-training schools which are intended to train maktab teachers remained stationary at 6, namely, 1 in the Burdwan Division, 3 in the Presidency Division, 1 in the Chittagong Division and 1 in the Rajshahi Division. All these schools are managed by Government; they had 167 teachers against 166 in the previous year. The number of schools for training maktab teachers is inadequate in proportion to the number of maktabs and their increased enrolment.

3. **Education of Muhammadan girls.**—During the period under review the number of Muhammadan girls reading in all classes of recognised schools in the Presidency rose from 355,894 to 376,231. Of the total number 27 were in colleges, 253 were in the high stage, 479 were in the middle stage, 373,741 were in the primary stage and 1,731 were in special schools; the corresponding numbers in the previous year were 20,210,422, 354,083 and 1,159 respectively. During the year under review the scheme for the improvement of Muslim female education at a cost of Rs. 12,600 referred to in the previous year's report was sanctioned.

4. **Special facilities.**—For the encouragement of Moslem education in the Presidency the following facilities have been provided by Government, namely, reservation of seats in favour of Muslim students in Government and Government-aided schools, grant of special scholarships and stipends to Muslim students and of free-studentships up to a limit of 15 per cent. of their own enrolment, and 50 per cent. higher grant to recognised maktabs.

5. **Advisory Committee.**—The report of the Muslim Education Advisory Committee appointed by Government in 1931 was submitted to Government in November 1934. It was published for general information with Government Resolution No. 3017 Edn., dated 30th November 1934. It is now under the consideration of the department.

6. **Chiefs and Nobles.**—There is no special institution in Bengal for the education of the sons and wards of chiefs and nobles. But there are special arrangements, as stated in previous reports, in the Nawab Bahadur's Institution at Murshidabad for education of the boys of the Nizamat family. These boys put up in a separate hostel which is exclusively meant for them, under the supervision of the Headmaster who is assisted by an Ataliq. The number of Nizamat boys under instruction on 31st March 1935 was 26 against the same number in the previous year. The maintenance of the hostel reserved for Nizamat boys cost Government Rs. 5,521 during the year against Rs. 4,984 in the previous year.

7. **Education of the children of backward classes.**—The statistics given below show the number of boys and girls of backward classes that were under instruction in various types of schools and colleges in Bengal on 31st March 1935:—

Class of institution.	Boys.	Girls.	Total.
Arts colleges	1,590	13	1,603
Professional colleges	306	1	307
Secondary and primary schools	370,903	80,504	451,407
Special schools	7,967	380	8,347
Unrecognised schools	7,606	2,175	9,781
Total ..	388,462	83,073	471,535

The corresponding figures on the same date of the previous year were 384,309, 77,985 and 462,294 respectively. In the succeeding paragraphs a brief account of the educational progress achieved by the children of aboriginal and non-aboriginal backward classes during the year under review in each division of the Presidency is given separately.

(*i*) *Calcutta.*— During the year under review the number of primary schools meant exclusively for the sons and wards of backward communities fell from 31 to 27 including 2 for girls. The number of pupils attending these schools fell from 1,240 to 1,044. Of the 27 schools, 7 were managed by Christian missions and 20 by Hindu missions. For the maintenance of these schools an amount of Rs. 2,457 was met from public funds. The Harijan Uthan Society managed an industrial school for boys and girls coming off from backward classes for the upkeep of which the Society received a grant of Rs. 1,250 from Corporation funds; the enrolment of this school increased from 98 to 180 during the year.

(*ii*) *Presidency Division (outside Calcutta).*—In the year under report there were 100,966 boys and 18,933 girls of the educationally backward classes under instruction against 97,268 and 16,789 respectively in the year preceding. Pupils of the Namasudra, Pod, Rajbanshi, Jogi,Kulu, Muchi, Bagdi, Tanti and Kapali castes form the bulk of the backward classes; Namasudras, Pod and Kapalis being comparatively the more advanced of these classes. The number of schools specially intended for the education of backward classes in the division rose from 830 to 840 during the year under review of which 11 were high, 58 middle and the rest were primary; three of these primary schools were maintained as before by the Sussex Trust Fund.

(*iii*) *Burdwan Division.*—The Santhals constitute the bulk of the aboriginal population of the division. The total number of pupils of the educationally backward classes under instruction in all kinds of schools on the 31st March 1935 was 134,206 against 133,056 in the previous year in the division. There were several free primary schools chiefly intended for the education of Santhals. In Birbhum the Board of Santhal Education was merged into the district School Board in the year under review. As before Midnapore had a special Assistant Sub-Inspector to look after Santhal education in the whole district. The Santhal High School at Bhimpore under the management of the American Baptist Mission had 180 pupils on its rolls on the 31st March 1935 against 223 pupils in the year preceding. The expenditure of this school during the year increased from Rs. 13,196 to Rs. 15,000 towards which Provincial revenues contributed Rs. 2,520 as in the previous year. The middle vernacular school for girls at Bimpore enrolled 134 pupils on the 31st March 1935 against 83 of the previous year. The school cost an amount of Rs. 2,277 against Rs. 2,237 in the previous year; Provincial revenues contributed Rs. 720 as in the previous year towards the total cost. The Industrial School for females at Bhimpore enrolled 16 pupils on 31st March 1935; the expenditure amounting to Rs. 200 borne entirely by mission funds. The girls here are showing a good deal of interest in lace making, knitting and other useful manual works. There were altogether 258 Santhal primary schools with 7,390 pupils on 31st March 1935 against 259 schools with 7,437 pupils in the year preceding. The total cost of primary education for Santhals amounted to Rs.41,870 towards which Provincial revenues contributed Rs. 32,626. There was one peripatetic weaving school in the district of Birbhum meant chiefly

for the Sonthals. Its enrolment fell from 10 to 8 and the total cost was Rs. 1,546 against Rs.1,632 in the preceding year. The cost was entirely met from Provincial revenues.

(*iv*) *Dacca Division.*—Boys and girls of backward classes reading in the schools of Dacca Division increased by 4,617 and 3,186 respectively in the year under review. There were 9 primary schools for Muchis, 3 for Methars, 21 for fishermen and 41 for aboriginal tribes comprising altogether 74 as compared with 70 in the previous year. High schools meant for Kapalis and Namasudras decreased from 9 to 8 and middle schools meant for Namasudras declined from 29 to 25. The number of primary schools intended for the Magh settlers in the Colonisation area of the district of Bakarganj was 12 as in the previous year which had 68 pupils against 79 in 1933-34.

(*v*) *Chittagong Division.*—The number of boys of backward classes receiving instruction in the various classes of schools in the division fell during the period by 7,647 and 1,754 respectively. The fall of pupils was reported to have been due to the omission of the Mahisya and other classes of pupils in the year of review in accordance with the revised schedule; they were included among the advanced classes of Hindus. The whole of the district of Chittagong Hill Tracts is a backward area inhabited by 15 hill tribes. Number of aboriginal pupils under instruction rose from 2,878 to 3,456, of whom 3,184 were boys and 272 were girls. There were in the Chittagong Hill Tracts one high, four middle, one training and 152 primary schools for boys and 2 primary schools for girls, besides 38 Keyang schools for religious instruction to Buddhists against the same number in the year preceding. The four middle schools, 130 primary schools for boys and 2 primary schools for girls are aided by public funds and the rest are unaided. In the Cox's Bazar subdivision there were 5 Burmese schools, all managed by Government which had 807 Magh pupils against 248 in the previous year. These schools during the year cost Rs. 3,556 wholly contributed by Government. Besides these there were one aided middle English school at Ramoo and two aided primary schools (one for boys and the other for girls) chiefly intended for the Burmese pupils within the Cox's Bazar Municipal limits.

(*vi*) *Rajshahi Division.*— Rajbansis, Namasudras, Malos, Sonthals and Oraons are the main educationally backward communities in this division. Boys and girls of backward classes reading in the schools of Rajshahi Division increased by 2,881 and 220 respectively in the year under report. There were 2 Boards of Sonthal Education, during the year under review, one at Rangpur and the other at Malda, against 3 in the preceding year; the decrease is attributed to the abolition of the Board of Sonthal Education at Dinajpur. The two Boards had 41 primary schools under their control and 32 schools under the Board at Dinajpur with 1,181 pupils were consequently transferred under the District School Board of Dinajpur established in the year under report. The number of Sonthal pupils attending these schools rose from 2,420 to 2,568. Schools intended for hill tribes and aboriginal races other than Sonthals in the district of Jalpaiguri numbered 24 (2 middle English and 22 primary) with 923 pupils against 19 schools with 584 pupils. These schools were subsidised from the District Fund and participated in the 1 per cent. Khasmahal grant.

8. **Education of criminal tribes.**—The industrial school maintained by the Salvation Army at Nilphamari for the education of the children of the Karwal nuts had 33 boys and 36 girls on 31st March 1935 against 36 boys and the same number of girls in the previous year. Instruction is imparted in agriculture, weaving and knitting as well as in ordinary primary school subjects. The school is a residential one and there are separate hostels for boys and girls. The total cost of maintenance of the school amounted to Rs. 10,108 against Rs. 11,000 in the previous year which was met entirely from Provincial revenues. As in the previous year there was only 1 school of this category at Kaktengair in the Kishoregunj subdivision of the Mymensingh district with 21 pupils against 25 in 1933-34. The upkeep of the school cost Rs. 237 which was met entirely from public funds.

The Reformatory and Industrial Schools, Alipore, had 222 inmates on 31st March 1935 as compared with 201 in the previous year. The upkeep of the institution cost Rs. 48,184 which was wholly provided from Provincial revenues. The school has provision for teaching weaving, tailoring, carpentry, and smith's work besides the primary syllabus. After the introduction of improved diet the general health of boys has improved much. A new baking oven has been constructed and a Radio installation has been made by the close of the year under report. The regular entertainment in the evening by the Radio has made the life of boys under detention less irksome. It will be interesting to note that in accordance with a scheme approved by Government, 11 boys were allowed to go home unattended by any escort for 1 or 2 days in the last quarter of their detention and they returned to school in time.

The Borstal Institution at Bankura which educates juvenile offenders of ages 15-21 had 277 pupils on the 31st March 1935 against 188 on the corresponding date of the previous year. The school is under the immediate supervision of a Deputy Superintendent of Police and teaches various crafts besides general subjects. A sum of Rs. 21,638 was spent for the upkeep of the school which was met entirely from Provincial revenues.

9. **Education of defectives.**—The Children's House, Kurseong, which adopts special methods of training for mentally and physically defective European and Anglo-Indian children registered 23 pupils on 31st March 1935 as compared with 24 pupils in the previous year. Stipends amounting to Rs. 2,520 were awarded by the department during the year under review for the maintenance and education of children living in the House. The Blind School at Behala (district 24-Parganas) has 83 pupils, including 20 girls, in 1934-35. The total expenditure of the school was Rs. 30,932 of which Rs. 7,506 came from Provincial revenues. The Deaf and Dumb School at Calcutta had 224 pupils, including 24 girls, on its rolls on 31st March 1935 against 213 (including 55 girls) in the year preceding. As in the previous year there was 3 aided deaf and dumb schools—one at each of the district headquarters of Dacca, Mymensingh, and Bakargunj with 61 pupils in them (including 7 girls). The maintenance of these schools cost Rs. 8,753 of which Rs. 3,499 was borne by public funds. The Deaf and Dumb School at Chittagong had 18 pupils (including 4 girls) on 31st March 1935 and the total cost for the upkeep of the institution was Rs. 1,592 of which Rs. 648 was borne by Provincial revenues. The Rajshahi Deaf and Dumb School had 15 pupils including 4 girls on its rolls. Of the total expenditure of Rs. 505 on this school Rs. 275 came from district funds and Rs. 230 from the Rajshahi Municipality.

A school for defective children has, as reported previously, been started at Jhargram in Midnapore, by the Bodhan Samity, a registered association, which had 15 pupils including 4 girls. The cost of maintenance was Rs. 5,527of which Rs. 902 was borne by public funds.

10. **Education of factory and colliery children.**—During the year under report there were 6 primary schools (with 547 boys and 7 girls against the same number of schools with 520 boys and 9 girls) exclusively intended for the education of the factory children. The Hindi primary schools and maktabs in the mill and factory areas of Tittagarh, Ichapur and Kankinara are also meant for them. For the children of the Madrasi mill hands there is a Telegu class attached to the departmentally aided primary school at Titagarh. The Rifle and Metal Factories at Ichapur maintained 2 primary schools attended by 387 pupils. The sum of Rs. 2,600 was paid from Provincial revenues and Rs. 2,780 was given by the Military Department for the maintenance of these schools.

In the coalmine area of the Burdwan district there were 12 colliery primary schools with 355 pupils on the 31st March 1935 against 9 with 238 pupils of the preceding year. Two such schools—one a Hindi and the other a Telegu primary school—were maintained by Banga Lakshmi Cotton Mills, Ltd., district Hooghly. These two schools also received grants from public funds. The authorities of the Bansberia mills maintained 3 primary schools for Hindi, Telegu and Urdu speaking boys of the mill hands entirely at their own cost. Another primary school is maintained by Railway authorities at Khargpur which is attended by the children of workshop labourers; it had 220 pupils on 31st March 1935 as compared with 192 in the previous year.

11. **Tea-garden schools.**—In the Jalpaiguri and Darjeeling districts there were 153 tea-garden schools with 3,658 pupils in 1934-35 against 171 schools and 3,479 pupils in 1933-34. The total cost of these schools was Rs. 24,072 towards which public funds contributed Rs. 10,747.

12. **Education of Jains.**—Altogether 1,151 Jain students were returned on 31st March 1935 from various grades of educational institutions in the Presidency as compared with 642 pupils in the corresponding date of the previous year. Of the total number of pupils 1,116 belonged to primary and secondary schools and 35 to colleges.

13. **Cantonment schools.**—In the cantonment areas of Barrackpore (district 24-Parganas) there were 9 primary and secondary schools against 10 in the previous year which were attended by 870 pupils as compared with 773 in the year before. For the maintenance of these schools an amount of Rs. 23,569 was spent during the year under review of which Rs 8,325 was met from Provincial revenues. There were on 31st March 1935, 3 primary schools—one in the Jalapahar and two in Lebong Cantonment areas (Darjeeling district). They had 130 pupils against 94 in the year preceding . The total cost of these schools was Rs. 2,213 of which Rs. 1,664 came from the Cantonment funds.

CHAPTER X.

Unrecognised Institutions.

1. There are certain educational institutions which do not follow the curricula prescribed by any constituted educational authority. These may be entitled unrecognised institutions. Various types of

indigenous schools, newly-started primary schools and maktabs, undeveloped secondary schools, tols, Koran schools and Kyangs or Buddhist monastic schools, are included in the category of the unrecognised schools. These schools owe their existence in some cases to the enterprise of their founder teachers; but in many cases their origin can be traced to party-factions. Usually these institutions are poor in their equipment, accomodation teaching and discipline. But some of them which have deliberately held aloof from the educational system of the province are doing admirable work on their own way. The most noteworthy of these are the group of institutions founded by Dr. Rabindra Nath Tagore at Bolpur and Surul in the district of Birbhum which have attracted the attention of educationists in Europe and America by the attempt that is made there to give prominence to the artistic side of education and to the best Indian traditions with the latest systems of western education. At Surul especially an interesting experiment is being tried to devise a system of education peculiarly suited to the needs of the village children. Reference should also be made to the Kabindra College, Goila, Bakarganj, which specializes in higher Sanskrit studies, including Aurveda and Hindu Philosophy, and to the Mahakali Pathsala, Mymensingh, a girls' school which imparts general instruction besides religious teaching on orthodox lines. In the year under review the total number of unrecognised schools in the Presidency fell from 1,588 to 1,419 and their enrolment from 67,171 to 64,427; of the total roll number 48,637 were boys and 15,790 were girls.

CHAPTER XI.

Residence of Students and their Physical and Moral Training.

1. **Hostels.**—During the year ending 31st March 1935 the number of students residing in hostels and boarding houses attached to educational institutions in the Presidency rose from 29,433 to 30,675. Of the total number of boarders 25,628 lived in hostels meant for Indians, and 5,047 occupied boarding houses intended for Europeans and Anglo-Indians. Of the Indian boarders 22,603 were males and 3,025 were females. Among Euronean and Anglo-Indian boarders 2,992 were boys and 2,055 were girls. It was decided during the period under review to construct a hostel for the Moslem students of Krishnagar College and to include necessary provision in the budget for 1935-36.

With a view to make hostels ultimately self-supporting the grants admissible for superintendence were subjected to a 30 per cent. cut during the year under review, but this reduction adversely affected the efficiency of supervision exercised over the boarders.

2. **Messes.**—Messes (including non-collegiate hostels) administered by the Students' Residence Committee of Calcutta University numbered 35 during the year under report which accommodated 1,884 boarders. On account of economic depression the rate of seat rents in all under-graduate hostels under the control of Calcutta University has been reduced since 1932-33 by rupee one. The number of messes managed by the Board of Intermediate and Secondary Education, Dacca, during the period was 24, which were occupied by 615 students

of different schools and colleges in the town. Both in Calcutta and Dacca the bulk of the expenses of hostels occupied by the students of backward communities was borne by Government.

3. **Physical education.**—There is evidence everywhere that greater attention is now being paid to the subject which is regarded by boys and girls as an essential part of the school work. But the progress has been slow for want of playing grounds, absence of trained instructors and apparatus, and of provision for a midday meal for students. The Young Women's Christian Association was paid, as previously a Government grant of Rs. 200 a month for maintenance of the services of a Physical Directress, who has given valuable assistance to girls' schools in the matter of organising games and sports.

The temporary physical training centre at Ballygunge completed its third session in March 1935; of the 21 students who joined the class during the session, 18 completed the course and were awarded diplomas. During the period under review a sum of Rs. 11,180 was sanctioned by Government, for the objects noted below in connection with the improvement of physical education:—

Objects.	Allotment.	No. of teachers trained.	No. of schools aided.	No. of play centres and aided clubs.	No. of sports associations aided.
	Rs.				
(*i*) Training of teachers of Middle English schools ..	1,000	72	..	..	..
(*ii*) Grants to girls' schools ..	1,500	..	24	..	..
(*iii*) Grants to play centres and clubs	5,000	..	..	71	..
(*iv*) Grants to inter-schools competitions	2,000	..	..	..	14
(*v*) Stipends to 4 students deputed by colleges to the physical training centre ..	720	.	..	..	..
(*vi*) Grants towards the salaries of 4 college instructors deputed to the physical training centre ..	960	..	..	..	..

As stated in previous reports, football continued to receive the greatest attention; other western games like tennis, hockey and badminton were also played in urban areas. Indigenous games, such as hadudu, kapati, &c., are preferred in the rural areas, on account of their inexpensive nature. Swimming and rowing are also encouraged in those places, where the necessary funds and organisations are available. Drill is being gradually replaced by physical exercises. Many schools have introduced folk dances and folk songs in their programme of physical education. The Bratachari organisation was mainly instrumental in giving an impetus to the revival of the folk dances and folk

songs All these activities are reported to have made school life more cheerful than before. Most of the well-managed high and middle English schools now realise a small game fee for the provision of requisite apparatus for physical education. It is gratifying to note that some Municipal Boards in the Presidency Division sanctioned small grants during the period under review towards the purchase of physical training apparatus for boys of primary schools.

4. **Boy Scouts.**—During the scout year 1934, 969 Scouts, 649 Cubs, 91 Rover Scouts and 89 Officers or a total personnel of 1,798 were registered. In addition, some of the old troops, which were in abeyance, were revived. The grand total at the end of the year stood at 12,100, showing a net increase of 1,770 during the period. The Annual Government grant of Rs. 6,000 was paid as before to the Boys Scout Association, Bengal, for the encouragement of Boy Scout movement in the Presidency. A sum of Rs. 4,000 was also distributed to Government and non-Government schools for the establishment and maintenance of Boy Scout Troops in them. Administrative approval has been accorded by Government to the payment of a special non-recurring grant of Rs. 2,500 to the Bengal Boy Scout Association for the establishment of a permanent camp site at Ganganagar. The services of the Bengal Rovers, who were sent to Monghyr after the earthquake to assist in the distribution of foodstuffs, medicines, and clothing, were greatly appreciated.

5. **Girl Guides.**—Girl Guide companies are reported to be in existence in most of the well-managed high and middle English schools for girls in the Presidency, but guiding has not made appreciable progress anywhere except in schools managed by Government and mission authorities.

6. **Medical supervision.**—No funds were available during the year under review for giving effect to the revised scheme of medical examination of the pupils of Government high English schools in the Presidency Division. The scheme of medical inspection of the pupils of secondary schools for boys in the city of Calcutta was in operation as in the previous year. Of the 5,560 boys examined by the doctors more than half had eye and throat defects. The Medical Board attached to the Students' Welfare Committee of Calcutta University examined during the period the health of about 1,800 students belonging to 4 colleges and 2 high English schools in Calcutta and issued 1,100 defect cards with recommendations suggested for remedying the defects of diseases discovered. A disquieting feature of the findings of medical inspectors is the increase in the incidence of malnutrition among school children.

7. **Hygiene.**—Lessons in Hygiene were taught as previously in all classes of schools, although it is a compulsory subject for classes III to VIII only. Hygiene lessons will be more effective, if they are given in hygienic environment and by teachers who are themselves hygienically conscious. Precepts are seldom supported now by examples. Officers of the Public Health Department are reported to have given valuable lectures to students at some centres with the help of charts, lantern slides and cinemas.

8. **Discipline.**—The state of discipline during the period was generally satisfactory. The measures adopted for the improvement of discipline included, as previously, delivery of lectures by peripatetic

lecturers, ward system of supervision by teachers, holding of debates where the pamphlets issued by the Publicity Board were explained and discussed, and encouragement of games and other forms of physical activities.

The tutorial system of supervision introduced in the first grade Government colleges in the preceding year was extended to all colleges maintained by Government including Islamic Intermediate Colleges at Dacca and Chittagong. The results achieved so far are said to be generally satisfactory.

9. **Religious and moral instruction.**—Religious instruction continues to be given in denominational schools like tols, madrasahs, maktabs, and mission schools; but the instruction given is only of a formal character. On the other hand moral instruction given in general schools is of too general a character to make an effective appeal to students. In the matter of teaching morality the influence of the teacher always counts for much; first aid classes, poor funds, scouting and debating clubs can do much in the teaching of moral qualities.

10. **National school.**—During the year 1934-35 there were in the Presidency 4 national schools with 932 pupils as compared with 9 schools with 1,197 pupils in the previous year. From the reports received by the department it is evident that the influence of these schools is steadily diminishing.

CHAPTER XII.

Conferences and Committees.

1. The Moslem Education Committee which was constituted in 1931 to advise Government with regard to the policy to be pursued for the advancement of Moslem education in the Presidency submitted its report during the year under review. This report which was published for general information in November 1934, is now under the consideration of the department.

2. A big Conference of Inspecting Officers and Head Masters of high English schools was held under the Presidency of the Divisional Inspector of Schools at Dacca in July 1934; the Additional District Magistrate and the Principal, Teachers' Training College, Dacca, also took part in its deliberations. The most noteworthy resolutions adopted by the meeting were those which related to (1) the inauguration of inter-school associations as a means of improving physical education and discipline in schools, and (2) the holding of an Education Week (which was celebrated after the close of the period under review). Educational conferences were also organised at some centres by Mr. P. J. Griffiths, District Magistrate, Midnapore, in which the meetings were addressed by 3 officers of the Education Department. These meetings served a useful purpose, inasmuch as they popularised primary education. The conferences held by District Inspectors of Schools discussed among other things questions regarding wastage and stagnation in primary schools, and starting of schools in unschooled areas; while the informal conferences of primary school teachers held by Sub-Inspectors of Schools considered particularly

matters relating to the improvement of the economic situation and restricted jute cultivation in the neighbouring areas. An important association called the "North Bengal Education League" was started during the period in the Rajshahi Division the main object of which is the spread of education.

3. The Bengal Women's Education League held its ninth annual session in Calcutta in February 1935 and passed the following noteworthy resolutions:—

The Conference urges—

(i) That the syllabus for rural schools be revised and then forwarded to the Education Department for consideration.

(ii) That the preparation of suitable text books for teachers and pupils of those schools be undertaken by the Education League.

(iii) That steps be taken to increase the facilities for the training of teachers for rural schools.

(iv) The Conference recommends to the consideration of the Education League the revision of the physical education syllabus for girls.

(v) The Conference asks the Education League to forward to the Director of Public Instruction, Bengal, a summary of its discussions on the alternatives to the Matriculation Examination for girls.

(vi) It is resolved that schools be asked to specialise in the making of simple co-operative books and portfolios as an addition to the school library and of educative games that can be used in class.

4. In pursuance of a resolution adopted by the Education Conference, which met at Government House in November 1933, the Department undertook to make a survey of secondary schools in Bengal in order to find out the actual needs of the Presidency in the matter and to devise ways and means to meet them; but the survey could not be completed during the year under report.

5. The All-Bengal Teachers' Association held its fourteenth session at Dacca in April 1935 under the Presidentship of Mr. A. F. Rahman, B. A. (Oxon.), M. L. C., Vice-Chancellor, Dacca University, in which questions concerning improvement of secondary education and pay and prospects of teachers were chiefly discussed.

CHAPTER XIII.

Text Book Committee.

1. During the year under report, two members of the Provincial Text Book Committee resigned their membership and one member died.

2. Fifteeen hundred and twelve books on the subjects called for in 1934 for secondary schools were received for consideration by the Committee. Of these, 5 were rejected at the preliminary examination

and the rest were circulated to regular members and co-opted members for scrutiny. In view of the large number of books received for review, the services of 43 co-opted members had to be requisitioned to complete the work of examination within the short time at the disposal of the Text Book Committee. As experts had to be employed for the examination of books received by the Committee, the services of 17 regular members only could be utilised for the purpose. Six hundred and sixty-nine books were recommended by the Committee for approval by the Director of Public Instruction, Bengal, for use in Government and Government-aided secondary schools in this Presidency.

3. During the year under review, the new system of levying fees on books for examination and of paying remuneration to reviewers was introduced. A sum of Rs. 18,749 was realised as fees from authors and publishers. The amount of remuneration paid to reviewers was Rs. 13,477.

4. The General Committee of the Provincial Text Book Committee at its meeting held on the 4th September 1934, accepted with certain modifications the recommendations of the Sub-Committees appointed to revise syllabuses of studies on Hygiene for classes VII and VIII of high schools for boys and on Bengali grammar for classes III-VIII of secondary schools for boys and girls in Bengal. These recommendations were being considered by the Director of Public Instruction, Bengal.

5. Babu Braja Mohan Dutt's prize for Indian ladies of the value of Rs. 45 for the year 1933-34 was awarded to Sreemati Prativamayee Gupta, Calcutta. The following subject was selected for the year 1934-35 :—

Co-education in (a) primary schools; (b) secondary schools; (c) University.

CHAPTER XIV.

Education in the Legislative Council.

It is worthy of note that no serious attempt was made by members of the Bengal Legislative Council in 1934-35 to effect drastic reductions in the Education Budget, although motions were brought proposing small cuts in respect of one or two items of the budget provision. The Council session in March 1934 afforded, as usual, opportunities to members to discuss among other things, questions relating to the reform of Calcutta University, dual control of secondary education, higher education of women, delay in the enforcement of the Bengal Rural Primary Education Act, 1930, proportionately smaller expenditure on primary education, inadequacy of present arrangements for imparting vocational education, and undue encouragement given to literary education. The question of the education of the scheduled castes was discussed at considerable length, when the attention of Government was

drawn to the proceedings of a conference of the scheduled castes held at Bongaon in October 1934, in which a resolution was unanimously adopted requesting Government to set apart a sum of Rs. 10 lakhs annually for education of the children of the scheduled castes and to appoint a Special Director of Education to look after their education. In many cases questions were asked by members with a view to elicit information about particular institutions and officers. Of the questions of a general character the following deserve mention: (1) Grants to schools functioning in places of the defunct circle schools, (2) curricula for boys and girls reading in secondary schools, and (3) Government grants to district boards for payment to trained and untrained teachers of primary schools. After all it was quite evident that members of the Legislative Council continued to take a keen interest in the affairs of the Education Department.

Resolution on the Report on the Administration of the Jail Department of the Presidency of Bengal for the year 1935.

GOVERNMENT OF BENGAL.

Political Department.

Jails.

CALCUTTA, THE 16TH JULY 1936.

RESOLUTION No. 2114P.J.

Read the Report on the Administration of the Jail Department of the Presidency of Bengal for the year 1935.

1. The year covered by the report confirmed the view expressed last year that there was no hope of a reduction of the jail population to the level of the average of the years preceding 1930. The average daily strength rose from 21,850 in 1934 to 22,721, the highest on record. This figure exceeds the number of prisoners for whom accommodation is provided by about 33 per cent., but the actual congestion was much greater owing to the presence of a large number of detenus who have to be segregated from other prisoners and require more space per individual. The situation would have been still worse if Government had not resorted to the expedient, which they recognise as extremely unsatisfactory, of a jail delivery in which 2,130 non-habitual prisoners were released before the expiry of their sentences.

In addition to special jails at Berhampore and Hijli, the two temporary jails at Dum Dum remained in commission. These, however, are not adapted for the proper treatment of criminals and Government decided to increase the permanent available accommodation by the construction of a Central Jail at Dum Dum on a site which is being acquired from the Government of India. Some new construction work will be necessary, but a considerable amount of accommodation will be made available by the conversion of buildings formerly used as military barracks.

2. The jails continued to hold a large number of terrorist prisoners, 836 of these being received during the year as against 761 in 1934. Ninety-one terrorist convicts were deported to the Andamans and 3 were repatriated from the islands for medical reasons. The presence of this class of prisoner increased the difficulties of administration. There were 4 cases of assault by terrorists on officers when they refused to comply with inadmissible demands or condone breaches of discipline. One method of dealing with refractory prisoners of this type is to segregate them in cells, but the existing cellular accommodation in the jails is altogether inadequate. It is a matter of some satisfaction, however, that 32 new cells were built in the Midnapore Central Jail and 41 in the Dacca Central Jail during the year.

3. In spite of the overcrowding and the presence of terrorist prisoners, it is satisfactory to find that no serious jail outbreak occurred and only 1 convict and 1 under-trial prisoner escaped from inside the jails.

4. Though it was not possible, owing to the financial stringency, to undertake any considerable reforms, Government sanctioned a scheme for the establishment of libraries in all the District and Central Jails. Some expenditure was incurred on the purchase of books for Central Jails during 1935; and it is proposed, as an experimental measure, to spend Rs. 1,000 a year during the next four years on the provision of reading matter for educated prisoners. Another small improvement made in the year under review was the introduction of indoor games for well-behaved prisoners. It is hoped that such measures will encourage good conduct on the part of prisoners and help in their reformation.

5. The average period of detention of prisoners in the under-trial stage remained about the same as in 1934. The Governor in Council regrets to observe, however, that there was some deterioration in several districts and that the period of detention was still high in others, notably, Burdwan, 24-Parganas, Murshidabad, Rajshahi and Darjeeling. He trusts that local officers will examine the reasons for such long detentions and endeavour to effect an improvement in future.

The number of short-term prisoners was still very high, no fewer than 14,083, or 34 per cent. of those admitted having received sentences of less than one month, as compared with 13,629 in

1934. These included a small number of persons who were sent to jail for less than a week by union benches. A large proportion consisted of persons imprisoned in default of payments of fines in petty cases, especially cases under the Railways Act. The Governor in Council appreciates the difficulty which confronts courts which have to deal with such cases. If the punishment of imprisonment in default of payment of fine were not carried out, it is certain that there would be a great increase in the number of defaulters. His Excellency in Council desires, however, to remind all Magistrates of the uselessness and positively harmful consequences of short sentences; he requests District Officers to pay particular attention to this matter in their inspection of subordinate courts and union benches.

6. The problem of adolescent delinquency has caused much anxiety to Government of late years. Although there was only a slight increase in the percentage of prisoners under 21, their number is very high, being well over 5,000. The existing facilities for their treatment in special institutions are strictly limited; there is one Borstal School at Bankura with accommodation designed for 219 youths but with an average daily strength during 1935 of 312; there is also a jail for juveniles at Berhampore and special arrangements for the treatment of adolescent criminals on Borstal lines have been made in a part of the Alipore Central Jail. The Governor in Council agrees with the Inspector-General of Prisons that the present arrangements are seriously inadequate, and that the question of providing more institutions of the Borstal type is a pressing one which ought not to be ignored.

7. The number of boys sent by courts to the Borstal School at Bankura is steadily increasing, and the average daily strength in 1935 was, as stated above, 312 against 215 in 1934. Primary education is compulsory, and higher education is given to boys who show an aptitude for it. It is satisfactory to learn that, up to the end of 1935, 9 boys had passed the Matriculation Examination, 6 of whom had continued their studies in colleges and that 7 boys were prepared during 1935 for the Matriculation Examination in 1936. The performance is all the more creditable as most of the boys were illiterate on admission. Greater emphasis was properly laid on technical and industrial training, and the inmates were taught such trades as weaving, tailoring, carpentry, smithy, book-binding, laundry, compounding and dairying. It is gratifying that the school received sufficient orders from outside to keep the boys engaged in all sections of industries throughout the year. The Governor in Council has read with great interest of other activities of the school calculated to secure an all-round development of the boys, such as physical training, provision of a recreation club and a library, introduction of the boy scout movement and provision for religious and moral instruction; he congratulates the staff on the manner in which the institution was run.

Without an efficient organisation for the care of the youths on their release, Borstal treatment cannot fully succeed. It is regrettable that public opinion in the province has not been fully roused in this matter. Good work has been done by the Central After-Care Association in Calcutta, but district branches seemed to have languished, and in some districts there was no such association at all.

The prisoners in the Berhampore Juvenile Jail were given primary education by two paid teachers and also vocational training in such handicrafts as weaving, tailoring, carpentry, bamboo and cane work. They were also taught drill and folk dances. The boys in the Alipore Central Jail were given industrial training and a measure of literary education supplemented by moral and religious instruction. There is also a small library which was largely used by these prisoners. In the Presidency Jail only rudimentary education could be imparted to the boys.

8. A reference has already been made to the importance of private work on behalf of youths discharged from the Borstal Institution. There is also some need in the mufassal for voluntary societies which will interest themselves in the well-being of adult prisoners in the interval between their discharge from jail and their return to regular employment.

9. The number of punishments imposed on warders slightly increased from 1,843 in 1934 to 1,900 in 1935

including 69 dismissals against 58 in 1934. This is attributable to the large number of temporary men employed in the prison establishment, who have little incentive to do their best. It is satisfactory to learn that middle class Bengali youths of fair education are offering themselves in increasing numbers for employment as warders and that the recruitment of Bengali warders has increased.

10. The net earnings from jail manufactures fell from Rs. 3, 40,535 in 1934 to Rs. 3,20,934 in 1935. Only 32·8 per cent. of the prisoners were employed in manufactures. In the present state of congestion in the jails and general depression of the market the problem of keeping all prisoners suitably employed is a difficult one.

11. In spite of serious overcrowding the mortality was distinctly lower than in recent years but there was a slight increase in the incidence of sickness.

12. The Governor in Council has read with interest and pleasure the Inspector-General's appreciation of the work done by the jail staff at Burdwan in rescuing prisoners and salving Government property when the jail was flooded owing to the rise of the Damodar river in August. It has also given His Excellency in Council great pleasure to read the names of those officers whom the Inspector-General has commended for good work during the year, when conditions were very different from those which have hitherto been regarded as normal. His Excellency in Council is glad to have this opportunity of recording his appreciation of the services rendered by Lieutenant-Colonel R. E. Flowerdew as head of the department.

Order. Ordered that a copy of this resolution be forwarded to the Inspector-General of Prisons, Bengal, for information and guidance.

Ordered that a copy of the report be submitted to the Government of India in the Home Department.

CALCUTTA, THE 20th JULY 1936

RESOLUTION No. 1808Mis.

Read

A report on the working of the Bengal Children Act, 1922, the Bengal Suppression of Immoral Traffic Act, 1933, the Reformatory Schools Act of 1897 and the Bengal Borstal Schools Act, 1928.

The Governor in Council desires again to place on record his great appreciation of the public service rendered by the various non-official bodies and voluntary associations mentioned in the report in connection with the working of these Acts. With the limited resources at their disposal they are, however, unable to deal adequately with the vast problems which the Acts were designed to solve and it is hoped that the public will recognise the valuable work which these associations have undertaken and the need for the maintenance and expansion of their activities, and will continue to increase their support and sympathy.

Order. Ordered that copies of the resolution be forwarded to the Director of Public Instruction, Bengal, the Commissioner of Police, Calcutta, the Inspector-General of Police, Bengal, and the Inspector-General of Prisons, Bengal, for information.

Ordered also that the resolution, together with the report, be published in the *Calcutta Gazette*.

By order of the Governor in Council,

H. GRAHAM,

Secy. to the Govt of Bengal.

Report on the Administration of the Bengal Children Act, 1922, the Bengal Suppression of Immoral Traffic Act, 1933, the Bengal Borstal Schools Act, 1928, and the Reformatory Schools Act, 1897, for the year 1935.

The Bengal Children Act extends only to the town of Calcutta, the suburbs and the port of Calcutta, the municipality of Howrah, the police-stations of Bally, Jagacha, Sankrail and Domjur in the district of Howrah and the police-stations of Baranagar, Barrackpore, Tittagarh, Noapara, Khardah, Naihati and Jagatdal in the district of the 24-Parganas. The following sections of the Act have not yet been brought into force in any part of Bengal:

Section 27(*1*), (*i*), (*ii*), (*iii*), (*a*), (*b*), (*c*), (*d*), (*e*) and (*f*).

Section 27(*2*), (*a*), (*b*), (*c*), (*d*) and (*f*).

Section 28(*2*).

The Bengal Suppression of Immoral Traffic Act, 1933, is in force in the town, suburbs and port of Calcutta, and at Panihati in the district of the 24-Parganas.

The Reformatory Schools Act applies to that part of the province in which the Bengal Children Act is not in force.

Boy offenders dealt with by courts in the Children Act area are sent to the Reformatory and Industrial Schools at Alipore and those from outside this area to the Reformatory School at Hazaribagh in the province of Bihar and Orissa under the provisions of the Reformatory Schools Act, 1897.

2. During the year under report, 2,373 children were dealt with by the Central Juvenile Court, Calcutta. The great majority of these were sent up for offences under section 66 of the Calcutta Police Act but 43 were prosecuted under the Bengal Children Act, 10 under the Bengal Suppression of Immoral Traffic Act and about 124 for theft and similar offences under the Indian Penal Code.

Eighty-nine of these children were sent to a school or other place of custody distributed as follows:

Reformatory School, Alipore	68
Industrial School, Alipore ..	7
Gobinda Kumar Home, Panihati ..	8
Salvation Army Home, Behala ..	3
Society for the Protection of Children in India . ..	3
Total ..	89

Others were fined or made over to their guardians while most of those sent up under the Police Act were warned and discharged.

3. The Reformatory and Industrial Schools, Alipore, which are for boys only, are maintained by Government, while the Salvation Army Women's Industrial Home at Behala provides a Reformatory School for girls. The following have been notified as places of suitable custody under section 28(*1*) of the Bengal Children Act and under section 27(2) (*b*) of the Bengal Suppression of Immoral Traffic Act :—

(*a*) The Gobinda Kumar Home, Panihati.

(*b*) The Salvation Army Women's Industrial Home, Behala

(*c*) The Calcutta Protestant Home, commonly called the Fendall Home.

(*d*) The Society for the Protection of Children in India, Calcutta.

4. *Controlling agencies.*—The Director of Public Instruction, Bengal, continued to be the Chief Inspector of Reformatory and Industrial Schools, with Mr A Macdonald and Mr. J. M Sen as Assistant Inspectors. The Inspectress of Schools, Presidency and Burdwan Divisions, was Assistant Inspector of Reformatory and Industrial Schools for girls.

The places of suitable custody recognised by Government as eligible for grants are inspected by three ladies appointed for the purpose.

5 *Administration.*—The following is a brief summary of the activities of the various institutions working under these Acts :—

(1) *Reformatory and Industrial Schools, Alipore.*—These schools which have been established by Government under section 6 (*1*) of the Bengal Children Act, are under the general administrative control of the Director of Public Instruction, Bengal, while their immediate management is vested in the Superintendent and a Managing Committee appointed under section 7(*1*) of the Act.

The combined institutions have accommodation for 350 boys and the entire cost is met from Provincial revenues.

On 31st December 1935, the number of boys in the Reformatory School was 177 against 143 and 138 in 1934 and 1933, respectively, and in the Industrial School the number was 61 against 68 in 1934 and 60 in 1933 The total number of boys in the two schools was thus 198 in 1933, 211 in 1934 and 238 in 1935.

The number of fresh admissions during 1935 was 87 in all—viz., 78 in the Reformatory and 9 in the Industrial School, of whom 71 had been convicted of theft.

One hundred and twenty-eight of the boys in the two schools were Hindus, 97 Moslems, 11 Christians and 2 Buddhists. The number of Bengali speaking boys increased from 60 to 88 and of Hindi-speaking boys from 65 to 67, while the number of Urdu-speaking boys decreased from 75 to 69 Of the 238 boys in the two schools only 87 belonged properly to Bengal, while the rest were natives of other provinces, but were either domiciled in Bengal or had come there temporarily mainly from Bihar and Orissa and the United Provinces.

Thirty-three boys were released from the Reformatory School and 13 boys from the Industrial School on the expiry of their terms. Three boys of the Industrial School were released on licence. Again 2 boys of the Reformatory and 1 of the Industrial School were released under orders of the Court

or of Government. Two boys were transferred to the Hazaribagh Reformatory School and 3 to the Borstal School, Bankura. Of the boys released during the year, 31 were made over to the Bengal After-care Association and the rest to their guardians.

Two boys of the Reformatory School escaped. The general discipline among the boys was, on the whole, good, there being only one instance in which a crime of violence was committed by an inmate, which arose out of rivalry between two boys. The accused was sentenced to transportation for life.

Primary education is imparted up to Class V and the boys also receive training in tinsmithy, blacksmithy, weaving, carpentary and tailoring. The results of the annual examinations were good. Facilities are given for moral and religious instruction and observance.

Visits to various places of interest were arranged as in previous years and 27 boys were allowed to go home for one day quite unattended two or three times during the last quarter of their detention and they all returned to schools in time.

The improved diet, introduced since 1932, has had a marked effect upon the general health of the boys. Excepting three cases of phthisis there was no serious case of illness in the hospital. The boys took part in regular games and physical exercises including gymnastics and drill. They acquitted themselves very creditably in various competitions.

The total expenditure on the schools in 1935 was Rs. 48,484, against Rs. 47,032 in the previous year and the average cost of maintaining and educating each pupil was Rs. 214-8 per annum, against Rs. 218-1 in 1934.

(2) *Gobinda Kumar Home.* This Home is intended for the reception of Indian girls dealt with under the Bengal Suppression of Immoral Traffic Act and the Bengal Children Act.

In 1935 there were 86 girls varying from 3 to 16 years of age, as against 82 in 1934. Eighty two of them were Bengalis and all Hindus. There were 14 fresh admissions during the year. All of them were dealt with under the Bengal Children Act or the Immoral Traffic Act.

There is a primary school attached to the Home. The girls were, as usual, given lessons in needle-work, knitting, weaving, nursing, cane work, jam and jelly making. Their handiwork was good.

The general health of the girls was good and their conduct satisfactory.

The cost of maintaining the Home was Rs. 13,331-10-11 of which Rs. 9,324-15-5 was met by Government grant. The average cost of maintaining a girl was about Rs. 12-14-8 a month, as against Rs. 13-8 per mensem in the previous year. Of this Rs. 10 was, as usual, contributed by Government in the shape of capitation grant and the balance was met from private sources.

(3) *Salvation Army Women's Industrial Home for Girls Behala.* This Home also caters for Indian girls dealt with under the two Acts. Its present capacity is 100 girls and the total number which passed through the institution in the year 1935 was 720.

Six Hindu girls, varying from 5 to 16 years of age, who were all Bengalis, were sent to the Home by the Court. They were all rescued from houses of ill-fame. Two of them were dealt with under section 4 and two under section 14 of the Bengal Suppression of Immoral Traffic Act and the remaining two under section 30 of the Bengal Children Act.

Their educational progress in the Home was fair and the health of all the girls was on the whole good during the year. The girls were taught sewing in addition to the general house work.

The Home received from Government a maintenance grant of Rs. 1,200 in addition to Rs. 3,190-8-9 on account of capitation grant for the girls sent there by the Court. Public subscriptions amounted to about Rs. 6,407.

The total cost incurred in the maintenance of the Home during the year was Rs. 10,615 and the cost of maintaining each girl during the year was Rs. 14-11-10 per mensem.

(4) *The Calcutta Protestant Home (Fendall Home).*—This Home is a Rescue Home for European and Anglo-Indian women and girls. The girls, who came to the Home during 1935, were for the most part in need of protection from undesirable surroundings, so that the work was mainly preventive. There were also a fair number needing a home while looking for work. During the year under review 41 girls, as against 50 in the last year, left the Home; 3 were married, 16 found new situations, 10 returned to relatives and 12 were sent to boarding schools.

The girls in the Home do fancy work of all kinds and make sample tea and money bags for business firms. They are paid according to the quantity and quality of the work done and the balance goes to the Home.

No girls dealt with under the Bengal Children Act or the Bengal Suppression of Immoral Traffic Act were sent to the Home during the year under review.

The Home received the usual maintenance grant of Rs. 960 from Government and its income from collections and donations amounted to Rs. 6,995.

(5) *Society for the Protection of Children in India.*—The number of children who were in the Society's custody or care or who were in one sense or another under its protection and at school as its wards was 298. The number of new cases registered during the year was 318 involving 522 children.

The Society received the usual maintenance grant of Rs. 1,600 from Government. Its total expenditure during the year amounted to Rs. 29,234.

(6) *Hazaribagh Reformatory School.*—The Reformatory School at Hazaribagh under the control of the Government of Bihar and Orissa continued to receive youthful offenders of this province sent by Courts of the districts to which the provisions of the Bengal Children Act have not been extended.

During the year under review 1 boy who had been convicted in Bengal, was discharged from the school under section 13 (2) of the Reformatory Schools Act of 1897.

(7) *Bengal After-care Association for Juveniles and Adolescents.*—One hundred and forty-seven boys were admitted to the hostel of the Association in 1935, against 145 in the previous year. Forty-six were received from the Borstal School, Bankura, 33 from the Alipore Reformatory and Industrial Schools, 65 from the Alipore Central Jail and 3 from other jails.

A notable feature of the year under report was the inauguration of the Industrial Section of the hostel The students received regular training in carpentry, tinsmithy, book-binding and cane-works.

The physical welfare of the inmates was secured by regular exercise and the playing of games. Discipline in the hostel was satisfactory and the inmates enjoyed normal health, save for a few cases of fever.

The Association received the usual maintenance grant of Rs. 2,400 from Government in the year. It also received contributions from the Corporation of Calcutta and from private sources.

The receipts of the Association during the year were Rs. 5,886, against an expenditure of Rs. 4,852.

The mufusil work of the Association is undertaken by several District Associations. Where no such association exists, it is done with the help of the District Magistrates and union boards

(8) *The All-Bengal Women's Union.*—The All-Bengal Women's Union, which was founded in the year 1932, has for its aims the abolition of commercial vice and of the exploitation and contamination of women and young persons. It is recognised by the Local Government for the purposes of clause (*c*), sub-section (7) of section 4 of the Bengal Suppression of Immoral Traffic Act.

The Union founded in November 1932 an After-care Home called the "All-Bengal Women's Industrial Institution" at Dum-Dum Cantonment in a Government of India building made over to it at a concession rent. Girls from 14 years upwards sent from different Rescue Homes in the province are admitted into the Home, which has at present 10 girls in residence. The Union is responsible for all the expenses of the Home.

The inmates of the Home are taught weaving and embroidery, and to make *chutneys* and *baries*. They are also given an elementary education in Bengali and English and a course of training in First Aid and in Girl Guide work. The health of the inmates was on the whole good.

The Union has helped in social work in Calcutta.

6. *Probation work.* During 1935, 249 children as against 259 in 1934 were on probation under the charge of the 3 probation officers—one lady and two men. These children were dealt with under the Bengal Children Act and the Immoral Traffic Act.

Boys were visited almost every week by the male probation officers and girls generally once a month by the lady probation officer. The conduct and progress of the probationers were carefully watched by these officers who put themselves always in personal touch with the boys, and, by means of friendly advice and moral persuasion, tried to create a suitable atmosphere so as to bring about a new and healthy outlook of life among the youthful delinquents Some of the probationers have been making remarkably satisfactory progress and it can well be expected that some of them will turn out useful citizens.

The probation officers had also to make initial enquiries into the antecedents, relations, conduct, etc., of all the serious cases tried in the Court

The Magistrate of the Central Children Court visited the probationers from time to time in order to gain personal knowledge about them

COMMUNIQUE.

Calcutta, the 25th July 1936.

The compilation of the electoral rolls for all the constituencies of the Bengal Legislative Assembly (except the Trade Union Labour and University constituencies) and of the Bengal Legislative Council has now been completed, and the rolls will be published in draft on the 3rd August 1936.

2. Owing to the magnitude of the task of preparing the rolls under the extended franchise, provisional rolls for the General, Muhammadan, Women's, Indian Christian, European and Anglo-Indian constituencies were prepared during 1935. These provisional rolls have now been brought up to date. Every effort has been made to make the rolls as complete and as accurate as possible, but persons who consider themselves qualified to vote are advised to inspect the rolls when they are published to see if their names are included. If their names are not included, or if they consider there is any inaccuracy in the entries, they may make claims to have their names included, or submit objections to entries which they consider are inaccurate or wrong.

3. A complete copy of the draft rolls for all constituencies will be published at the offices of the Registering Authority and the Returning Officer. In urban areas, the rolls for General, Muhammadan, Indian Christian and Women's constituencies will be published at the office of the municipality or cantonment concerned and also at convenient places within wards. In rural areas relevant portions of these rolls will be published at the offices of the Chaukidari union and union board, at police-stations, sub-registry offices, subdivisional offices, Munsif or District Judges' courts and at district offices.

4. Claims and objections must be submitted in prescribed forms and in the manner provided in the rules, and have to be addressed to the Revising Authority. They may be presented either to the Revising Authority or to the Registering Authority, or to the District or Subdivisional Magistrate of the district or subdivision to which the claimant or objector belongs, or they may be sent by post to the Revising Authority. In the case of Labour and Commerce and Industry constituencies, claims and objections have to be addressed and presented or sent by post to the Revising Authority. The names of revising officers and registering authorities are given in notices with which the rolls are published.

5. The last date for submitting claims and objections is the 19th August 1936. Under the Rules, applications received after this date will be rejected.

6. The forms on which claims and objections may be made will be obtainable free of charge from the offices of Commissioners of Divisions, District Officers, and Subdivisional Officers concerned (in Calcutta, the office of the Chief Executive Officer, Calcutta Corporation) and also from the Reforms Office, Writers' Buildings, Calcutta. Claims and objections not submitted in printed forms are liable to be rejected, but there is no objection to a claim or objection being filed on a typed form if a printed form is not available.

7. All necessary particulars regarding the qualifications of electors, the method of publication and revision of electoral rolls and the prescribed forms for claims and objections have been embodied in the Bengal Electoral Orders and Rules, copies of which can be purchased at four annas a copy from the Bengal Government Press (Publication Branch), 38, Gopalnagar Road, Alipore, or the Sales Office, Writers' Buildings, Calcutta.
